The Department of Health and Social Care (DHSC) is awarding this contract to provide air freight charter activity. Air Freight Charter in this procurement lot refers only to the management of charter bookings. All wraparound services required as part of the end-to-end solution including ground handling, customs services and further freight movement

will be delivered by the Lot 2 Supplier. The successful organisation will provide outsourced managed services for international air freight charter. The successful organisation's primary objective is to manage the end to end process of securing and booking air charter to be utilised by DHSC and their suppliers, not including wraparound services. The successful organisation will hand over charter booking to the Authority's selected air freight and ground handling service. Both Lot 1 and 2 providers will work to the Authority's given schedule to optimise import of freight into the UK. The successful organisation will be required to mobilise a fully staffed operation, running on a 24/7/365 basis, working in direct contact with DHSC's freight teams, producers and other third party organisations as required.

## **VII.2) Information about modifications**

### **VII.2.1) Description of the modifications**

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

The Air Charter contract awarded to Kuehne and Nagel has been extended in value under Regulation 72(1)(c) by under 50% of the original contract value. No other modifications have been made to the contract as part of the extension.

### **VII.2.2) Reasons for modification**

Need for modification brought about by circumstances which a diligent contracting authority/entity could not foresee.

Description of the circumstances which rendered the modification necessary and explanation of the unforeseen nature of these circumstances:

The original contract value reflected demand figures available at the time. Changes to testing procedures altered the demand for freight usage. For example, the Prime Minister's RoadMap (Feb 2021) resulted in wider use of Lateral Flow Devices to facilitate testing of teachers, pupils and household bubbles for the re-opening of schools, along with workplace testing and visitors to adult social care settings. The Universal offer in April 2021 provided all adults access to twice weekly testing, bringing the eligible population for LFD tests to 50m people and an increased scope for private sector testing, widening the number of companies able to request testing ahead of the re-opening date. Disruption to rail lines internationally lead to an increased reliance on air charter. This modification serves to amend the total value by under 50% of the original contract value. There is no alteration to the overall nature of the contract.

### **VII.2.3) Increase in price**

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £34,000,000

Total contract value after the modifications

Value excluding VAT: £50,999,999
