Tender

British Museum South West Energy Centre Mechanical and Electrical Engineer

The Trustees of the British Museum

F02: Contract notice

Notice identifier: 2022/S 000-024342

Procurement identifier (OCID): ocids-h6vhtk-03648a

Published 31 August 2022, 4:05pm

Section I: Contracting authority

I.1) Name and addresses

The Trustees of the British Museum

The British Museum, Great Russell Street

London

WC1B 3DG

Email

procurement@britishmuseum.org

Telephone

+44 02073238000

Country

United Kingdom

Region code

UKI - London

Internet address(es)

Main address

<https://www.britishmuseum.org/>

I.3) Communication

The procurement documents are available for unrestricted and full direct access, free of charge, at

<https://www.delta-esourcing.com/tenders/UK-UK-London:-Mechanical-and-electrical-engineering-services./RU329R86S5>

Additional information can be obtained from the above-mentioned address

Tenders or requests to participate must be submitted to the above-mentioned address

I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Recreation, culture and religion

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

British Museum South West Energy Centre Mechanical and Electrical Engineer

Reference number

BM.22.053

II.1.2) Main CPV code

- 71334000 - Mechanical and electrical engineering services

II.1.3) Type of contract

Services

II.1.4) Short description

The British Museum is seeking to appoint a mechanical, electrical, public health and fire services engineering consultant (MEPHF engineer) to provide services for the delivery of the South-West Energy Centre (SWEC) project from RIBA Stage 3 onwards. The appointed consultant will also be required to act as Lead Consultant, Lead Designer, Principal Designer, Design Management and Lead Appointed Party.

II.1.5) Estimated total value

Value excluding VAT: £1,250,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKI - London

Main site or place of performance

LONDON

II.2.4) Description of the procurement

The British Museum is unique in bringing together under one roof the cultures of the world, spanning continents and ocean. No other museum is responsible for collections of the same depth and breadth, beauty and significance. Its eight million objects allow us to explore the extraordinary diversity of human cultures, from small communities to vast empires, to discover the many forms and expressions human beings have given to every aspect of life, and to realise how closely they are connected.

While the Museum's Bloomsbury estate is as well-known and loved as much as many of the great artefacts the building contains, the Museum's engineering systems and infrastructure have been adapted and developed piecemeal over time to meet the evolving needs of the Museum. This has resulted in a highly complex and uncoordinated building services strategy across the estate, and in some areas the systems and infrastructure are outdated and at risk of failure. There is also limited resilience and flexibility and no common route for the major heating and power distribution.

The SWEC project is a major infrastructure project that is designed to improve energy supply and generation, rationalise services distribution, and provide resilience for the Bloomsbury estate. The project is also a key enabler which will support ongoing asset and infrastructure renewal and the emerging aspirations of the Museum's masterplan.

The appointed consultant will be required to provide the following services for RIBA Stage 3 onwards:

- Mechanical and electrical engineering
- Public health engineering
- Fire engineering
- Lift engineering
- Lighting engineering
- Energy management consulting
- Acoustics engineering
- Security systems engineering
- BREEAM assessment consulting

- Environmental modelling

In addition to the above, the appointed consultant will also be required to fulfil the following roles:

- Lead Consultant
- Lead Designer
- Principal Designer (as defined in CDM 2015)
- Design Management
- Lead Appointed Party (as defined in ISO 19650)

An estimated total value of £1,250,000 has been given at II.1.5 and II.2.6 in this notice. This is the mid-point of the range of £1,000,000 to £1,500,000 which is the project team's best estimate of the likely value of this contract based on the information currently available.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £1,250,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Start date

16 January 2023

End date

31 August 2028

This contract is subject to renewal

No

II.2.9) Information about the limits on the number of candidates to be invited

Envisaged number of candidates: 5

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2.14) Additional information

To respond to this opportunity please click here: <https://www.delta-sourcing.com/respond/RU329R86S5>

Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.2) Economic and financial standing

Selection criteria as stated in the procurement documents

III.1.3) Technical and professional ability

Selection criteria as stated in the procurement documents

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Restricted procedure

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.2) Time limit for receipt of tenders or requests to participate

Date

11 October 2022

Local time

12:00pm

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

Section VI. Complementary information

VI.1) Information about recurrence

This is a recurrent procurement: No

VI.2) Information about electronic workflows

Electronic ordering will be used

Electronic invoicing will be accepted

Electronic payment will be used

VI.3) Additional information
