I.6) Main activity

Water

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Supply of Glass Fused Steel Tanks

II.1.2) Main CPV code

- 45223821 - Prefabricated units

II.1.3) Type of contract

Works

II.1.4) Short description

Supply of Glass Fused Steel Tanks (With or without roofs) for water and wastewater Applications supplied to Scottish Water(SW). The scope of supply is for the design, manufacturing, factory/works testing(where required) delivery, off-loading, installation, suitable for locating on a concrete base supplied by others, commissioning, and on-site testing of Tanks in accordance with SW Standards and Specifications. Consideration should be given to the requirements for the provision of all necessary ancillary equipment. Supply of tanks for water applications(Drinking Water Inspectorate storage tanks) all plant, equipment and components must be compliant with SW specifications and standards required and which are approved for use in water treatment, complying with the Public Water Supply Scotland Regulations and/or the Water Supply(Water Quality) Regulations. Supply of Tanks for Wastewater Applications all plant, equipment and components must be compliant with SW specifications and standards.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £3,500,000

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKM - Scotland

Main site or place of performance

SCOTLAND

II.2.4) Description of the procurement

Supply of Glass Fused Steel Tanks (With or without roofs) for water and wastewater Applications

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

A tender for Tanks with Multiple lots was published in 2022. This tender consisted of 3 lots and lot 3 of the tender was for Tanks (with or without roofs) for water and wastewater applications including the holding of sludge and wash water. None of the bidders were able to provide tanks with Glass Fused Steel as the material. Scottish Water has an ongoing requirement for Glass Fused Steel Tanks that cannot not be met with alternative materials. Within our specifications we specifically call out glass coated steel tanks and alternative options would not be able to achieve the required storage volumes for Scottish Water's larger assets. For example, if Scottish Water is required to provide storage for 50m³ sludge, a glass coated steel tank can be designed to that size comfortably due to it being of panel type design. Therefore we intend to put a framework in place with Reliant Installations Limited who have been able to provide tanks using this material previously

IV.1.3) Information about a framework agreement

The procurement involves the establishment of a framework agreement

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section V. Award of contract/concession

Contract No

SW23/CSD/1447

Title

Supply of Glass Fused Steel Tanks

A contract/lot is awarded: Yes

V.2) Award of contract/concession

V.2.1) Date of conclusion of the contract

31 July 2023

V.2.2) Information about tenders

The contract has been awarded to a group of economic operators: No

V.2.3) Name and address of the contractor/concessionaire

Reliant Installations Ltd

Station Yard, Church Street, Gargrave, North Yorkshire

Skipton

BD23 3NE

Email

chris@reliant-tanks.co.uk
