Value excluding VAT: £4,040,000

II.2) Description

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

Repair of Mk2 AMOS and Type 417F Oxygen Regulators, Post Design Services and Spares Enabling.

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

Article 28(1)(e) of Directive 2009/81/EC Regulation 16(1)(a)(ii) of the Defence and Security Public Contract Regulations 2011 for technical reasons. Meggitt are the Design Organisation (DO) for systems used within the High-Altitude Parachute Life Support System (HAPLSS) Capability which includes the Aircraft Modular Oxygen Systems (AMOS) enabling parachutists to pre-breathe oxygen when flying at High Altitudes and Personal Oxygen Regulators used in both flight and when parachuting from High Altitudes. These were originally manufactured by (or companies that are now part of) Meggitt UK Limited.

In addition to their DO role, they are the only known company with the capability to provide repair, overhaul, spares provision and conduct the necessary climatic & altitude acceptance tests for these critical life support Oxygen Regulators. The HAPLSS is due to be replaced by a new capability within 4 years and therefore it would not be economical for another company to invest in setting up a test and repair facility and have access to spares.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section V. Award of contract

Contract No

C17CSAE/701553378

Title

Repair of Mk2 AMOS Consoles and Type 417F Oxygen Regulators, PDS and Spares
