Not on any register

Internet address(es)

Main address

www.hse.gov.uk

I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Health

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

BTPT Beta Delivery Partner

Reference number

HSE T4470

II.1.2) Main CPV code

- 72221000 - Business analysis consultancy services

II.1.3) Type of contract

Services

II.1.4) Short description

The Biocides & Pesticides Transformation Programme is designed to deliver sustainable transformation to support HSE's effective and efficient delivery of biocides and pesticides regulatory services to meet UK requirements, whilst improving the customer and staff experience and releasing capacity for higher value work. The scope of the overall programme includes processes, people, digital services and technology.

We are looking to complete a short discovery to identify solution design options to include front end, workflows, data capture and data migration. Deliverables required include detailed solution design for recommended option, delivery road map and a costed, detailed implementation plan. HSE will consider the best option to progress to Beta delivery on completion of this work.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £3,100,000

II.2) Description

II.2.2) Additional CPV code(s)

- 72221000 - Business analysis consultancy services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

The Biocides & Pesticides Transformation Programme is designed to deliver sustainable transformation to support HSE's effective and efficient delivery of biocides and pesticides regulatory services to meet UK requirements, whilst improving the customer and staff experience and releasing capacity for higher value work. The scope of the overall programme includes processes, people, digital services and technology.

We are looking to complete a short discovery to identify solution design options to include front end, workflows, data capture and data migration. Deliverables required include detailed solution design for recommended option, delivery road map and a costed, detailed implementation plan. HSE will consider the best option to progress to Beta delivery on completion of this work.

II.2.11) Information about options

Options: Yes

Description of options

There is an initial piece of discovery work costed at £342k, following the outcome of this it will be decided by the HSE and the contractor whether any further work is required and how it will be taken forward.

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated without a prior call for competition

- Extreme urgency brought about by events unforeseeable for the contracting authority

Explanation:

The original contract included a break point between the Alpha and Beta phases of the project, with progress to the Beta phase being dependent on agreement between the Parties regarding the detail of the Beta phase. The Alpha stage was completed successfully but the Parties were unable to reach agreement in respect of delivery of the Beta phase. The deadline for completion of the Beta phase of the contract is 31 March 2024 and given the amount of work required to successfully deliver the outputs of this project it was considered to present too great a risk to delivery if time had been spent conducting a competitive procurement exercise. HSE in an effort to minimise the delivery risk to the greatest extent possible decided to award the contract to a contractor with whom we have previous experience of working with to deliver such projects.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section V. Award of contract/concession

Contract No

HSE T4470

Title

Beta Delivery Partner

A contract/lot is awarded: Yes

V.2) Award of contract/concession
