II.2.4) Description of the procurement

NRWAS are looking to purchase a Particle size analyser. The equipment will be used for analysing a range of environmental matrices such as sediments, soils, sand and associated materials. The samples will be analysed for a wide range of band sizes to comply with our environmental directives.

We require the successful supplier to deliver and install the machine by 28/02/2025. We are looking to purchase this with a 1 year warranty, and a 4 year service and maintenance

contract to follow. If possible, we will be looking to secure a further 5 year service and maintenance contract with the successful supplier subject to supplier availability.

The Analyser must be able to measure the band sizes for the range 1000um to
