Regional or local authority

# I.5) Main activity

General public services

## **Section II: Object**

## II.1) Scope of the procurement

#### II.1.1) Title

T24-081BUS Fortinet Network Switches

#### II.1.2) Main CPV code

• 72000000 - IT services: consulting, software development, Internet and support

### II.1.3) Type of contract

Services

## II.1.4) Short description

Derry City and Strabane District Council intends to procure Fortinet replacement switches to replace all of the above Cisco switches. DCSDC have 2 main council sites and multiple smaller sites. The current switch infrastructure in the main council's offices at 98 Strand Road has reached end of useful and supportable life. The current Cisco 2960 POE edge switches across 4 cabinets only allow speeds of 100mb per port and as applications and programs get more and more data hungry there is a need to increase this speed. The core switching is 2 x Cisco 3750 non-PoE in a stack with 1Gigabit fibre uplinks to the edge switching cabinets. As the Council has had this switching in place for some time, change of hardware also provides an opportunity to consider and reconfigure the current VLAN configuration to update, improve performance and improve security. Please refer to the CfT documents for further detail.

#### II.1.6) Information about lots

This contract is divided into lots: No

## II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £62,378.18

## II.2) Description

#### II.2.2) Additional CPV code(s)

- 32424000 Network infrastructure
- 32421000 Network cabling

- 32422000 Network components
- 32420000 Network equipment

#### II.2.3) Place of performance

**NUTS** codes

• UKN0A - Derry City and Strabane

#### II.2.4) Description of the procurement

Derry City and Strabane District Council intends to procure Fortinet replacement switches to replace all of the above Cisco switches. DCSDC have 2 main council sites and multiple smaller sites. The current switch infrastructure in the main council's offices at 98 Strand Road has reached end of useful and supportable life. The current Cisco 2960 POE edge switches across 4 cabinets only allow speeds of 100mb per port and as applications and programs get more and more data hungry there is a need to increase this speed. The core switching is 2 x Cisco 3750 non-PoE in a stack with 1Gigabit fibre uplinks to the edge switching cabinets.
