## Section II: Object

### II.1) Scope of the procurement

#### II.1.1) Title

Stacking of nature market credits

Reference number

C20564

#### II.1.2) Main CPV code

- 79311400 - Economic research services

#### II.1.3) Type of contract

Services

#### II.1.4) Short description

The Nature Markets Framework, published in March 2023, sets out the principles required to ensure environmental integrity while combining multiple ecosystem service revenue streams from a single intervention (stacking), but Defra is yet to make a decision on whether to increase the number of circumstances where stacking is allowed in nature markets. There lacks a sound evidence base to inform this decision, and it is unclear what stacking model would be most effective at delivering Defra's environmental and private finance ambitions as well as the effect on costs to developers within our compliance markets (biodiversity net gain and nutrient neutrality). This research is a critical enabler to deliver on Defra's commitment to provide clarity to landowners on the ability to stack credits on their land that was set out in the Nature Markets Framework.
