II.2.4) Description of the procurement

Ancillary Services

The Supplier will provide one (1) or more of the Ancillary Deliverables (goods and services) listed below. The Ancillary Services are pertaining to the management, conservation, reduction and data management of water consumption as requested by the Buyers in order to deliver efficiency, financial and consumption savings.

The Ancillary Services can include the requirement for purchase and installation of water

management, water efficiency, water conservation or other water savings measures. These measures may include provision and installation of goods

including new equipment optimisation of equipment (including existing equipment) and provision of related services. Additional services may be required to improve the environmental conditions at Buyers sites.

The scope includes provision for the Supplier to offer its own or third party financing option on request by the Buyers, to support delivery of the Ancillary Deliverables (goods and services) listed below.

The Buyer may request Deliverables (goods and services) that are not listed below but fall within the scope of Ancillary Services. It is intended that the range of Ancillary Services will expand to meet the Buyers business needs as they develop

their strategies. Initially the Framework Agreement will consist of the following nine (9) Ancillary Services.

These Ancillary Deliverables (goods and services) are:

? Water Footprint assessment;

? Tariff optimisation and benchmarking;

? Water audit site surveys;

? Leak detection and repair;

? Contingency planning;

? Legionella Risk Assessments;

? Automated Meter Reading;

? Bill Validation; and

? Cost Recovery.

- 4) Transparency Agenda

On 02/04/2014, Government introduced its Government Security Classifications (GSC) scheme which replaced Government Protective Marking Scheme (GPMS). A key aspect is the reduction in the number of security classifications used. All bidders were required to make themselves aware of the changes as it may impact this requirement. This link provides information on the GSC at:

<https://www.gov.uk/government/publications/government-security-classifications>

Cyber Essentials is a mandatory requirement for Central Government contracts which involve handling personal information or provide certain ICT products/services. Government is taking steps to reduce the levels of cyber security risk in its supply chain through the Cyber Essentials scheme. The scheme defines a set of controls which, when implemented, will provide organisations with basic protection from the most prevalent forms of threat coming from the internet. To participate in this procurement, bidders were required to demonstrate they comply with the technical requirements prescribed by Cyber Essentials, for services under and in connection with this procurement.
