II.1.4) Short description

The appointed Contractor will be responsible for acquiring, processing and delivering a LiDAR scan of the land area of Northern Ireland. The LiDAR data set must cover the entire land area of Northern Ireland and be provided at an absolute minimum resolution of 16 points per square metre under leaf-off conditions. It will be delivered formatted as digital terrain model, a digital surface model and fully classified LAS file format. The Contractor is responsible for carrying out the flight(s) needed to gather the LiDAR data using a helicopter or conventional fixed wing aircraft. Due the large scale of the areas to be covered, the use of drones will not be accepted.
