# I.4) Type of the contracting authority

Body governed by public law

# I.5) Main activity

Education

# **Section II: Object**

# II.1) Scope of the procurement

II.1.1) Title

(NU/1682) High Voltage Infrastructure - Network Mapping Services

Reference number

DN547350

## II.1.2) Main CPV code

• 65000000 - Public utilities

# II.1.3) Type of contract

Services

## II.1.4) Short description

The University wishes to appoint a contractor to carry out enhanced testing services of the Campus High Voltage Infrastructure network.

The Current HV system is in excess of 50 years old and is currently undergoing major refurbishment and upgrade to allow for a more robust system for the next 30 plus years and enable the University with more resilient business continuity.

Following a desk based cable assessment study based on OFGEM health indices, the University has generated a base health level index of the University's 46 x 11kv circuits on age, loading, and fault history.

This desk based exercise was carried out without any physical diagnostic data and the health indices that have been derived for our circuits may be either overly optimistic or pessimistic based on this calculation.

Diagnostic testing is required to either confirm or amend the current health index on a circuit by circuit basis.

The enhanced testing will revise the health index and depending upon diagnostic testing results allow the formulation of an action plan. The plan will range from immediate too long term action depending upon diagnostic results and health index.

In accordance with HSG 230

#### II.1.6) Information about lots

This contract is divided into lots: No

## II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £260,000

# II.2) Description

#### II.2.2) Additional CPV code(s)

• 71000000 - Architectural, construction, engineering and inspection services

#### II.2.3) Place of performance

**NUTS** codes

• UKC22 - Tyneside

## II.2.4) Description of the procurement

The University wishes to appoint a contractor to carry out enhanced testing services of the Campus High Voltage Infrastructure network.

The Current HV system is in excess of 50 years old and is currently undergoing major refurbishment and upgrade to allow for a more robust system for the next 30 plus years and enable the University with more resilient business continuity.

Following a desk based cable assessment study based on OFGEM health indices, the University has generated a base health level index of the University's 46 x 11kv circuits on age, loading, and fault history.

This desk based exercise was carried out without any physical diagnostic data and the health indices that have been derived for our circuits may be either overly optimistic or pessimistic based on this calculation.

Diagnostic testing is required to either confirm or amend the current health index on a circuit by circuit basis.

The enhanced testing will revise the health index and depending upon diagnostic testing results allow the formulation of an action plan. The plan will range from immediate too long term action depending upon diagnostic results and health index.

In accordance with HSG 230

#### II.2.5) Award criteria

Quality criterion - Name: Quality / Weighting: 30

Price - Weighting: 70

#### II.2.11) Information about options

Options: No

#### II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

# Section IV. Procedure

# **IV.1) Description**

## IV.1.1) Type of procedure

Open procedure

## IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

# IV.2) Administrative information

## IV.2.1) Previous publication concerning this procedure

Notice number: <u>2021/S 000-012838</u>

## Section V. Award of contract

#### **Contract No**

NU/1682

A contract/lot is awarded: Yes

## V.2) Award of contract

#### V.2.1) Date of conclusion of the contract

6 August 2021

#### V.2.2) Information about tenders

Number of tenders received: 4

Number of tenders received from SMEs: 4

Number of tenders received from tenderers from other EU Member States: 0

Number of tenders received from tenderers from non-EU Member States: 0

Number of tenders received by electronic means: 4

The contract has been awarded to a group of economic operators: No

# V.2.3) Name and address of the contractor

RPS Switchgear Ltd

Hebburn

Country

**United Kingdom** 

NUTS code

• UKC22 - Tyneside

The contractor is an SME

Yes

# V.2.4) Information on value of contract/lot (excluding VAT)

Total value of the contract/lot: £176,953.33

# **Section VI. Complementary information**

## VI.4) Procedures for review

VI.4.1) Review body

**Newcastle University** 

Newcastle upon Tyne

Country

**United Kingdom** 

## VI.4.3) Review procedure

Precise information on deadline(s) for review procedures

The University will incorporate a standstill period at the point information on the award of the contract is communicated to tenderers. That notification will provide full information on the award decision. The standstill period, which will be for a minimum of 10 calendar days, provides time for unsuccessful tenderers to challenge the award decision before the contract is entered into.

The Public Contracts Regulations 2015 (SI 2015 No 102) provide for aggrieved parties who have been harmed or are at risk of harm by a breach of the rules to take action in the High Court (England, Wales and Northern Ireland) within 30 days of knowledge or constructive knowledge of breach.
