## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

Software Defined Wide Area Network (SDWAN)

#### **II.1.2) Main CPV code**

- 72720000 - Wide area network services

#### **II.1.3) Type of contract**

Services

#### **II.1.4) Short description**

TransPennine's Software-Defined Wide Area Network (SDWAN) is a pivotal part of our core infrastructure enabling the operation and delivery of some of our most important IT assets and systems across the extensive TPT network in Northern England and Southern Scotland. The SDWAN effectively enables the safe and reliable operation of key customer facing assets such as Ticket Vending Machines (TVMs) and Customer Information Systems (CIS). TransPennine currently has 47 existing circuits in the SDWAN network. TransPennine has 21 locations, and it is anticipated that a small number of these may require additional works to the physical environment to facilitate this core infrastructure upgrade. It is planned that this procurement will include the carrying out of these works to enable installation. To enable this, a separate smaller piece of work to survey TPT's locations and capture the output requirements from this is currently being completed and will form part of the ITT.

#### **II.1.5) Estimated total value**

Value excluding VAT: £410,000

#### **II.1.6) Information about lots**

This contract is divided into lots: No

### **II.2) Description**

#### **II.2.3) Place of performance**

NUTS codes

- UKE - Yorkshire and the Humber

- UKD - North West (England)
- UKC - North East (England)

Main site or place of performance

YORKSHIRE AND THE HUMBER,NORTH WEST (ENGLAND),NORTH EAST (ENGLAND)

#### **II.2.4) Description of the procurement**

Interested parties will be invited to take part in a SQ that will be used to create a shortlist for an Invitation to Tender process when further information will be provided. The SQ will provide further details in terms of the actual selection process for shortlist. In relation to the Invitation to Tender (ITT), the shortlisted supplier list will be furnished with a detailed summary of requirements incorporated into an ITT which will look to evaluate a supplier response to the Technical/Qualitative and Commercial/Quantitative requirements, incorporated into this will be a contractual evaluation structure. The scope of the services to be provided by the Tenderer awarded the Contract will include, but not be limited to, the following: •Placing of additional circuits and replacement of current circuits to ensure that any new technology can be fully delivered and realised. •Delivery of increased bandwidths that will accommodate parallel projects running within our business. •Providing a responsive, support service following installation.

#### **II.2.5) Award criteria**

Quality criterion - Name: Technical/Qualitative / Weighting: 40

Cost criterion - Name: Commercial/Quantitative / Weighting: 60

#### **II.2.6) Estimated value**

Value excluding VAT: £410,000

#### **II.2.7) Duration of the contract, framework agreement or dynamic purchasing system**

Duration in months

24

This contract is subject to renewal

Yes

Description of renewals

Extensions of up to 24 months are possible following the end of the initial contract period.

**II.2.9) Information about the limits on the number of candidates to be invited**
