Liquidity – this is calculated as current assets less stock and work in progress, divided by current liabilities. If the answer is greater than or equal to one then it is a pass for this ratio.

The following list is not exhaustive and other criteria may be considered where proposed by a bidder as mitigating factors:

Does the bidder have a healthy cashflow?

Is the bidder profitable enough to finance the interest on its debt?

Is most of the bidder's debt owed to group companies?

Is the bidder's debt due to be repaid over a number of years, and affordable?

Have the bidder's results been adversely affected by "one off costs" and / or "one off accounting treatments"?

Do the bidder's auditors (where applicable) consider it to be a "going concern"?

Do Keynote (where applicable) consider the bidder to be a "going concern"?
