Provision of External Quality Review Services of Financial Audits in central government in Northern Ireland

Read

Text

NIAO is seeking a supplier to provide audits as set out in the accompanying procurement documents. The term of the arrangement is 3 + 1 + 1 years and NIAO is conducting the procurement using the open procedure. Please note that the estimated value set out in this notice is an estimate and not intended to be a cap on the value. The scope of the procurement intends to cover the requirements set out in this notice and the accompanying procurement documents, so this figure should be viewed as a guide rather than the final value. The detail of services and CPV codes are also indicative and contain the broad categorisation of services rather than particulars. Bidders should assume that the services actually required will also include extensions to related or ancillary services within each categorisation. The actual scope of services required may be narrower than that set out above. To ensure sufficient interest in the contract is generated, the services are not being divided into lots. NIAO is not observing the usual 30-day minimum period as the services are required urgently. The period selected will provide a reasonable period for bidders to respond and address our need for the contract to be live before the end of September.
