Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Specialist Peatland Restoration

Reference number

FLS-0013-C

II.1.2) Main CPV code

- 77200000 - Forestry services

II.1.3) Type of contract

Services

II.1.4) Short description

Forestry and Land Scotland (FLS) looks after the national forests and land to enhance biodiversity, support tourism and increase access to the green spaces that will help improve Scotland's physical and mental health and well-being. FLS also continues to provide vital timber supplies to support a sustainable rural economy. Further information on who FLS are and what it does can be found here

<https://forestryandland.gov.scot/https://forestryandland.gov.scot/>

There are extensive areas of deep peat on Scotland's Forests & Land, including many which are afforested. FLS has committed to manage all peatlands on Scotland's forests and land in a sustainable manner, maximising the delivery of ecosystem services for the benefit of Scotland's people and environment.

The aim of this contract is to provide specialist peatland restoration services to deliver our programme of restoration of degraded peatlands in line with targets agreed with Scottish Government as part of the wider Peatland Action delivery programme. These services are split into two distinct types of operation. Part A: Lots 1-11 Site Rewetting, and Part B: Lots 12-14 Specialised Peatland Harvesting

By 2027 onwards we expect to be restoring at least 3,000 hectares annually, thereby reducing carbon emissions, capturing additional carbon and restoring valuable priority habitats that support priority species in the process. Alongside this is our duty to help deliver Scottish Government's policy in relation to the Climate Emergency, and to do our part in delivering ecosystem services spanning environmental, social, and economical benefits.

The contract term is a maximum of five (5) years (three (3) initial years plus one optional extension of 24 months).

II.1.6) Information about lots

This contract is divided into lots: Yes

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £41,608,225

II.2) Description

II.2.1) Title

Skye, Wester Ross & Inverness-shire

Lot No

2

II.2.2) Additional CPV code(s)

V.2.4) Information on value of contract/lot (excluding VAT)

Total value of the contract/lot: £3,842,425

Section VI. Complementary information

VI.3) Additional information

Tenderers should note that although the value of all Awarded Contracts has been estimated at 41,608,225.00 GBP excluding VAT over the maximum five year contract period, the Authority reserves the right to modify the Contract(s) – irrespective of the monetary value of modifications – within the scope permitted under Regulation 72 (1) of The Public Contracts (Scotland) Regulations 2015, should operational reasons require it.

Actual requirements can vary due to the following changes:

- Increase or decrease in the Purchasers budget to cope with an increase or decrease in the Services.
- In the event that the Purchaser requires to increase or decrease their anticipated programme to meet their regulated requirement and/or a change in internal circumstances within a Region.
- In the event that a Contract for another Lot is terminated, the Purchaser may increase the scope of the Lot to support the completion of the Services within that Lot.

- Statutory Plant Health Notices (SPHN) which could result in a large, time bound requirement to clear significant areas of forest. This could result in additional area needing to be harvested or re-wetted using this contract than currently programmed or anticipated.

- Policy Change and Government funding. Scottish Government may increase or decrease Peatland

Restoration volumes across the National Forest Estate, which may result in more or less funding for

Peatland Restoration being secured. For example, revision of the Climate Change Action Plan may

result in additional restoration being required.

- External Funding. Additional sources of non-Scottish Government funding may become available for

Peatland Restoration. For example, private investment companies seeking to support Net Zero.

- Updates to the requirements of the IUCN Peatland Code, or development of other voluntary standards.

For example, requirements for reporting of restoration works may be updated in future versions of the

Peatland Code, or as part of other voluntary standards such as new biodiversity or water codes.

(SC Ref:740398)

VI.4) Procedures for review

VI.4.1) Review body

The Inverness Justice Centre

Longman Road

Inverness
