### Scope

### Description

CDF2 will deliver asset management activities across the whole of the EA's asset base including Flood and Coastal Risk Management, Navigation and Water Land and Biodiversity assets. The framework will provide both appraisal, design, technical support and construction works that support the EA's asset management, maintenance, refurbishment and construction programmes of work. The Framework will be required to develop, design and deliver nature based solutions and more traditional hard engineering based solutions. The framework will be used for construction projects in the range of £1m to ~£75m (upper limit TBC). Construction and detailed design services will be split across multiple lots which will be divided by value.
