- 48311000 - Document management software package

II.2.3) Place of performance

NUTS codes

- UKG3 - West Midlands

II.2.4) Description of the procurement

University Hospitals Birmingham NHS Foundation Trust has a requirement for a quality management system to support quality management processes for a number of clinical and non-clinical departments.

Quality management processes require the creation, collation and audit of a substantial number of documents and evidence. These documents need to be stored in a controlled manner, whilst allowing auditable access and evidence of review and amendments. In addition to departmental document management there are a number of additional essential requirements relating to non-conformance/quality management, staff qualifications, training and competencies recording and audit preparation and reporting.

Suppliers who are able to offer solutions relevant to this requirement are invited to express an interest and respond to a market engagement questionnaire. Further details on how to do this are contained within the additional information section of this notice.

This exercise is intended to provide potential bidders with the opportunity to review the Authority's Briefing Document and to provide information regarding the services they can offer that could meet these outline requirements. This builds on the Authority's commitment to engage with the market, by sharing information and seeking input from the market to enable us to develop the final specification and determine the appropriate route to market in a fair and transparent manner.

II.3) Estimated date of publication of contract notice

15 February 2022

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes
