I.4) Type of the contracting authority

Regional or local authority

I.5) Main activity

General public services

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

HD009-20-1 Corporation Bridge Refurbishment

Reference number

DN574562

II.1.2) Main CPV code

- 45000000 - Construction work

II.1.3) Type of contract

Works

II.1.4) Short description

EQUANS on behalf of North East Lincolnshire is seeking a suitably qualified principal contractor for the refurbishment of Corporation Bridge, which is a grade 2 listed structure. Specialist contractors will be required who have the experience with working on historic assets of this type

Due to the age of the structure it's materials, and the aggressive environment, many elements of the structure are deteriorating.

- Widespread corrosion and section loss of the below deck metal elements including the structural girders (both longitudinal and transverse), the bearings, and connecting elements including the rivets.
- Particularly heavy corrosion and section loss to the first cross beam of the moving span, due to water ingress from the adjacent joint. This includes 50% section loss to some stiffeners.
- Damage and deterioration to the timber "Acme" deck panels and sealant to the lifting section carriageway.
- Extensive failure of protective paint system below the deck level, and area failures of same above the deck level.

II.1.5) Estimated total value

Value excluding VAT: £5,000,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 44112000 - Miscellaneous building structures
- 44200000 - Structural products
- 92522000 - Preservation services of historical sites and buildings

II.2.3) Place of performance

NUTS codes

- UKE13 - North and North East Lincolnshire

Main site or place of performance

Grimsby, North East Lincolnshire

II.2.4) Description of the procurement

The proposed works will include the following :

Mechanical

Replace filler plates and protective casing to mechanical elements.

Free, scour, clean, and grease roller bearings.

Upgrade of electrical control system for the lifting mechanism.

Structural

Scour away corrosion to all elements, repair steel where needed by splicing in new metal, replace corroded rivets. This may involve replacing the steel deck plates, depending on their condition.

Remove invasive plant life and repair various cracked and damaged stone copings and brickwork in abutments and wing walls. This may involve structural sheet piling works to

redistribute loading away from failing brick elements.

Replace deteriorating Acme carriageway panels and sealant.

Clear and upgrade inadequate superstructure drainage.

Bridge waterproof replacement.

Repair works to the substructure at each end of the bridge and the piers, supporting the main structure.

Undertake conservation works to the Control Room.

Aesthetics

Remove failing / failed paint system (likely abrasive blasting), and repaint entire structure. It is hoped that an improved paint system, such as a resinous paint system, will be used as the primary protective system, potentially with an outer coat of traditional paint in order to satisfy the listing. This would extend the lifespan of the refurbished structure and give a greater return on investment.

Bridge lighting improvements.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £5,000,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

15

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.14) Additional information

A principal contractor will be appointed to oversee all of the elements of the work. Therefore dividing the tender into lots was not an option.

Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.1) Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions

The successful tenderer must hold Construction Health and Safety (CHAS) or equivalent Safety Schemes in Procurement (SSIP)

The successful tenderer must be a member of Constructionline.

III.1.2) Economic and financial standing

List and brief description of selection criteria
