How to Apply:

UK Shared Business Services Ltd (UK SBS) will be using the Jaggaer eSourcing Portal for this procurement.

To register on the Jaggaer eSourcing portal please use the link <https://beisgroup.ukp.app.jaggaer.com/> and follow the instructions to register as a supplier.

If you are already registered on the Jaggaer eSourcing Portal and wish to participate in

this procurement, please use the link: <https://beisgroup.ukp.app.jaggaer.com/>.

Once you are logged into the system you will be able to locate the Procurement you wish to leave a bid on by clicking the ITTs Open to All Suppliers and searching for the reference number DDaT22549

Purpose

The purpose of this tender exercise is to secure a high calibre environmental software solution that will enable UKRI to:

- Undertake effective data management and reporting of our historical and current carbon emissions
- Undertake effective data management and reporting of wider environmental sustainability impacts as stipulated in the GGC reporting framework (as supplied under Annex C)
- Forecast and track UKRI's potential future carbon emissions to 2040 using estimated data generated by UKRI
- Undertake 'What If' scenario analysis of UKRI's future carbon emissions using estimated data generated by UKRI to assess a range of possible carbon reduction scenarios to 2040.

Aims

UKRI intends to use the software & services provided to support a range of our strategic and operational environmental performance requirements, including:

- For carbon accounting and reporting based on data from our historical and current operations
- To generate future emissions forecasts using estimated data generated by UKRI from proposed future interventions into our existing operations and new infrastructure investments
- To generate 'What If' future scenarios and analysis through future scenarios using estimated data generated by UKRI from alternative options for delivering proposed future interventions into our existing operations and new infrastructure investments
- To use the range of emissions scenarios and forecasts generated by the platform as the evidence base to inform future net zero investment planning and decision-making

- To regularly review and report on emissions by Centre/Institute, Research Council, and UKRI (the 'Users')
- To conduct business analysis and future trend analysis by integrating our financial and carbon emissions data
- To enable continuous improvement in the quality of UKRI data sources (and compatibility from our contractors and service Suppliers) to drive increasingly robust emissions data
- To ensure UKRI's carbon reduction planning, accounting, and reporting is aligned with UK Government and global best practice, including the GHG Protocol and Science Based Targets initiative (SBTi) for example

II.1.5) Estimated total value

Value excluding VAT: £500,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 48000000 - Software package and information systems

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

Purpose

The purpose of this tender exercise is to secure a high calibre environmental software solution that will enable UKRI to:

- Undertake effective data management and reporting of our historical and current carbon emissions
- Undertake effective data management and reporting of wider environmental sustainability impacts as stipulated in the GGC reporting framework (as supplied under

Annex C)

- Forecast and track UKRI's potential future carbon emissions to 2040 using estimated data generated by UKRI
- Undertake 'What If' scenario analysis of UKRI's future carbon emissions using estimated data generated by UKRI to assess a range of possible carbon reduction scenarios to 2040.

Aims

UKRI intends to use the software & services provided to support a range of our strategic and operational environmental performance requirements, including:

- For carbon accounting and reporting based on data from our historical and current operations
- To generate future emissions forecasts using estimated data generated by UKRI from proposed future interventions into our existing operations and new infrastructure investments
- To generate 'What If' future scenarios and analysis through future scenarios using estimated data generated by UKRI from alternative options for delivering proposed future interventions into our existing operations and new infrastructure investments
- To use the range of emissions scenarios and forecasts generated by the platform as the evidence base to inform future net zero investment planning and decision-making
- To regularly review and report on emissions by Centre/Institute, Research Council, and UKRI (the 'Users')
- To conduct business analysis and future trend analysis by integrating our financial and carbon emissions data
- To enable continuous improvement in the quality of UKRI data sources (and compatibility from our contractors and service Suppliers) to drive increasingly robust emissions data
- To ensure UKRI's carbon reduction planning, accounting, and reporting is aligned with UK Government and global best practice, including the GHG Protocol and Science Based Targets initiative (SBTi) for example.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

36

This contract is subject to renewal

No

6 October 2023

Local time

2:00pm

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

IV.2.7) Conditions for opening of tenders

Date

6 October 2023

Local time

2:01pm

Section VI. Complementary information

VI.1) Information about recurrence

This is a recurrent procurement: No

VI.2) Information about electronic workflows

Electronic ordering will be used

Electronic invoicing will be accepted

Electronic payment will be used

VI.3) Additional information

DO NOT APPLY DIRECTLY TO BUYER

All submissions will be assessed in accordance with the Public Procurement Regulations that apply to this opportunity.

Responses must be received by the date and time in the tender documentation; responses received outside of the deadline or not sent via the Jaggaer eSourcing portal will not be accepted or considered by the Contracting Authority further for this opportunity, unless a system outage is experienced, to which the Contracting Authority will advise upon accordingly.

Interested organisations should ensure that they allow a sufficiency of time, prior to the deadline to allow all sections to be completed in full and any attachments to be uploaded.

As a user of the Jaggaer eSourcing Portal you will have access to the Jaggaer messaging service which facilitates all messages sent to you and from you, as well as other messages and updates in relation to any specific tender event. Please note that any and all information secured outside of the messaging service, shall have no Legal Standing, merit or worth and should not be relied upon by any organisation submitting a tender response.

Please note it is your organisations responsibility to access these messages on a regular basis to ensure you have sight of all relevant information applicable to this opportunity.

The Contracting Authority expressly reserves the right:

i. not to award any contract as a result of the procurement process commenced by publication of this notice; and

ii. to make whatever changes it may see fit to the content and structure of the procurement; and under no circumstances as part of your organisations participation in this opportunity, will the Contracting Authority be liable for any costs incurred by any organisation as a result. If the Contracting Authority decides to enter into a contract with

any successful organisation(s), this does not mean that there is any guarantee of subsequent contracts being awarded. Any expenditure, work or effort undertaken prior to contract award is accordingly a matter solely for the commercial judgement of your organisation in doing so.

About UK Shared Business Services

UK Shared Business Services Ltd (UK SBS) brings a commercial attitude to the public sector; helping our contracting authorities to improve efficiency, generate savings and modernise.

Where UK SBS is not named as the Contracting Authority within the documentation, UK SBS will be acting as an agent on behalf of the Contracting Authority.

Our broad range of expert services is shared by our customers. This allows our customers the freedom to focus resources on core activities; innovating and transforming their own organisations.
