II.1.3) Type of contract

Supplies

II.1.4) Short description

Smart Applications Management Limited (SAM) is the trading name of South West Smart Applications Limited, a Membership based central purchasing body, which owns and runs the National Mobilities Procurement Hub for its Members.

This Framework is seeking the provision of ITSO Electronic Ticket Machines (ETMs) for passenger transport services, and their ancillary equipment. The ETMs are important in enabling a passenger to board and pay for transport, via multiple

methods including ITSO Smart Cards, Contactless EMV, Tap-On Tap-Off (ToTo), Account Based Ticketing (ABT), Electronic Tokens, Multi-format Barcodes (including QR Codes), Cash, Stored Value Payment Cards and similar methods.

ETMs come in a range of sizes and types from large single fixed ETMs on Bus, to Handheld ETMs, as well as component based systems involving a fixed ETM completed by additional Tap Off Readers throughout a vehicle. ETMs can also be configured to withstand outside working in exposed conditions.

ETMs can be supported by a range of support software and licences to provide additional services to the customer. These can include areas such as a dynamic back office system, real time vehicle location, SIRI feeds for Real Time Passenger Information display systems, Automatic Vehicle Location, Driver Messaging, Dynamic Seat Reservation, Schedule Page 4 to 30 Adherence, Traffic Light Priority Control, and Multiple Payment

Systems to name but a few.

This Framework is seeking to host a number of ETM types, sizes, configurations as well as support equipment, services and licences to enable the Users of the Framework to have a wide choice of supply options.

This Framework is seeking to host a number of ETM Suppliers for passenger transport services, who are committed to partnership working and the application of ITSO, EMV, ABT, Barcode and other forms of electronic ticketing for passengers.

This Framework will be available for all public sector bodies in the UK, including Local Authorities, Highway Authorities, Combined Authorities, and Regional Transport Authorities in England, Wales, Scotland, and Northern Ireland as well as National Transport Bodies such as Transport for Wales, Transport Scotland, Translink and the Department for Transport.

It will also be available for use by any bus/rail/tram/ferry operator in the UK. More detail of who the Framework is for, is outlined in Section VI.

II.1.5) Estimated total value

Value excluding VAT: £20,000,000

II.1.6) Information about lots

This contract is divided into lots: Yes

Tenders may be submitted for maximum number of lots 3

Maximum number of lots that may be awarded to one tenderer: 3

The contracting authority reserves the right to award contracts combining the following lots or groups of lots:

SAM may award a Lot or any combination of Lots to each successful framework supplier.

II.2) Description

II.2.1) Title

ITSO Fixed Electronic Ticket Machines, Support Equipment and Related Services

Lot No

1

II.2.2) Additional CPV code(s)

• 34980000 - Transport tickets

II.2.3) Place of performance

NUTS codes

• UK - United Kingdom

Main site or place of performance

Any area covered by a SAM Member within England, Wales, Scotland, Northern Ireland.

II.2.4) Description of the procurement

This Framework Lot is seeking the provision of Fixed ITSO Electronic Ticket Machines (ETMs) for passenger transport services, and their ancillary equipment.

Fixed ETMs are important in enabling a passenger to board and pay for transport, via multiple methods including ITSO Smart Cards, Contactless EMV, Tap-On Tap-Off (ToTo), ABT, Electronic Tokens, Multi-format Barcodes (including QR Codes), Cash, Stored Value

Payment Cards and similar methods.

Fixed ETMs can come in a range of sizes and types from large single fixed ETMs on baseplates, to smaller split ETMs with no baseplates, as well as component based systems involving a fixed ETM complemented by additional Tap Off Readers or other equipment throughout a vehicle.

Fixed ETMs are usually used in safe, dry environments such as on-bus or in an office, but may be interchangeable with other vehicles where the same baseplates (where relevant) are used.

Fixed ETMs can be supported by a range of support software and licences to provide additional services to the customer. These can include areas such as a dynamic back office system, real time vehicle location, SIRI feeds for Real Time Passenger Information display systems, Support for Account Based Ticketing (ABT) Systems, Automatic Vehicle Location, BODs Compliance, Driver Messaging, Dynamic Seat Reservation, Schedule Adherence, Traffic Light Priority Control, and Multiple Payment Systems to name but a few.

This Framework Lot is seeking to host a number of Fixed ETM types, sizes, configurations

as well as support equipment, services and licences to enable the Users of the Framework to have a wide choice of supply options.

This Framework Lot is seeking to host a number of ETM Suppliers for passenger transport services, who are committed to partnership working and the application of ITSO, EMV, ABT, Barcode and other forms of electronic ticketing for passengers.

This Framework Lot will be available for all public sector bodies in the UK, including Local Authorities, Highway Authorities, Combined Authorities, and Regional Transport Authorities in England, Wales, Scotland, and Northern Ireland as well as National Transport Bodies such as Transport for Wales, Transport Scotland, Translink and the Department for Transport.

It will also be available for use by any bus/rail/tram/ferry operator in the UK. More detail of who the Framework is for, is outlined in Section VI.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

48

This contract is subject to renewal

Yes

Description of renewals

Because of the specialist nature of the technology and interface requirements, the Framework Agreement may be renewed for up to 2 additional 12 month periods - making a maximum Framework length of 70 months.

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: Yes

Description of options

An agreement term may be extended from a standard 48 month term, by up to 2 x 12 month periods, making the maximum term available 72 months.

II.2.12) Information about electronic catalogues

Tenders must be presented in the form of electronic catalogues or include an electronic catalogue

II.2.14) Additional information

A copy of the ITT with all bidding information can be obtained by request, by emailing: procurement@nationalmobilitiesprocurementhub.co.uk

II.2) Description

II.2.1) Title

ITSO Handheld Electronic Ticket Machines, Support Equipment and Related Services

Lot No

2

II.2.2) Additional CPV code(s)

• 34980000 - Transport tickets

II.2.3) Place of performance

NUTS codes

• UK - United Kingdom

Main site or place of performance

Any area covered by a SAM Member within England, Wales, Scotland, Northern Ireland.

II.2.4) Description of the procurement

This Framework Lot is seeking the provision of Handheld ITSO Electronic Ticket Machines (ETMs) for passenger transport services, and their ancillary equipment.

Handheld ETMs are important in enabling a passenger to board and pay for transport. They may support a range of validation methods including, but not exclusive: ITSO Smart

Cards, Contactless EMV, Tap-On Tap-Off (ToTo), Electronic Tokens, ABT, Multi-format Barcodes (including QR Codes), Cash, Stored Value Payment Cards and similar methods.

Handheld ETMs can come in a range of sizes and types and may be complemented by additional equipment such as separate printers or Tap Off Readers throughout a vehicle or elsewhere.

Handheld ETMs may be used in safe, dry environments such as on-bus or in an office, but equally they are used outside of a vehicle and are therefore exposed to the UK weather. As such variants of Handhelds (or the provision of protective covers) capable of withstanding different operating environments are expected within this Lot.

Handheld ETMs can be supported by a range of support software and licences to provide additional services to the customer. These may include, but are not limited to areas such as: a dynamic back office system, real time vehicle location, SIRI feeds for Real Time Passenger Information display systems, BODs Compliance, Support for Account Based Ticketing (ABT) Systems, Automatic Vehicle Location, Driver Messaging, Dynamic Seat Reservation, Schedule Adherence, Traffic Light Priority Control, and Multiple Payment Systems to name but a few.

This Framework Lot is seeking to host a number of Handheld ETM types, sizes, configurations as well as support equipment, services and licences to enable the Users of the Framework to have a wide choice of supply options.

This Framework Lot is seeking to host a number of Handheld ETM Suppliers for passenger transport services, who are committed to partnership working and the application of ITSO, EMV, ABT, Barcode and other forms of electronic ticketing for passengers.

This Framework Lot will be available for all public sector bodies in the UK, including Local Authorities, Highway Authorities, Combined Authorities, and Regional Transport Authorities in England, Wales, Scotland, and Northern Ireland as well as National Transport Bodies such as Transport for Wales, Transport Scotland, Translink and the Department for Transport.

It will also be available for use by any bus/rail/tram/ferry operator in the UK. More detail of who the Framework is for, is outlined in Section VI.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

48

This contract is subject to renewal

Yes

Description of renewals

Because of the specialist nature of the technology and interface requirements, the Framework Agreement may be renewed for up to 2 additional 12 month periods - making a maximum Framework length of 70 months.

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: Yes

Description of options

An agreement term may be extended from a standard 48 month term, by up to 2 x 12 month periods, making the maximum term available 72 months.

II.2.12) Information about electronic catalogues

Tenders must be presented in the form of electronic catalogues or include an electronic catalogue

II.2.14) Additional information

A copy of the ITT with all bidding information can be obtained by request, by emailing: procurement@nationalmobilitiesprocurementhub.co.uk

II.2) Description

II.2.1) Title

ITSO Electronic Ticket Machines, Support Equipment and Related Services for an Exposed Environment

Lot No

3

II.2.2) Additional CPV code(s)

• 34980000 - Transport tickets

II.2.3) Place of performance

NUTS codes

• UK - United Kingdom

Main site or place of performance

Any area covered by a SAM Member within England, Wales, Scotland, Northern Ireland.

II.2.4) Description of the procurement

This Framework is seeking the provision of Electronic Ticket Machines (ETMs) for passenger transport services, and their ancillary equipment capable of use in an exposed weather environment, such as a Ferry Jetty.

ETMs (fixed, handheld and variations thereof) capable of withstanding exposed weather conditions are important in enabling a passenger to board and pay for transport. They may support a range of validation methods including, but not exclusive: ITSO Smart Cards, Contactless EMV, Tap-On Tap-Off (ToTo), Electronic Tokens, ABT, Multi-format Barcodes (including QR Codes), Cash, Stored Value Payment Cards and similar methods.

They may also be capable of integrating with a 3rd party Leisure Ticketing software provider to read a 3rd party Barcode/QR code as well as send and receive messages to such 3rd party software.

ETMs capable of withstanding exposed weather conditions can come in a range of sizes and types and may be complemented by additional variants such as pole mounted ETMs for speedy ferry passenger validation.

ETMs capable of withstanding exposed weather conditions will regularly be used in adverse weather conditions, including saltwater. As such, these ETMs must be capable of withstanding different operating environments as expected within this Lot.

ETMs capable of withstanding exposed weather conditions may be supported by a range of support software and licences to provide additional services to the customer. These

may include, but are not limited to areas such as: a dynamic back office system, real time vehicle location, SIRI feeds for Real Time Passenger Information display systems, BODs Compliance, Support for Account Based Ticketing (ABT) Systems, Automatic Vehicle Location, Driver Messaging, Dynamic Seat Reservation, Schedule Adherence, Traffic Light Priority Control, Integration with 3rd Party Systems, and Multiple Payment Systems to name but a few.

This Framework Lot is seeking to host a number of ETM types capable of withstanding exposed weather conditions, with differing sizes, configurations as well as support equipment, services and licences to enable the Users of the Framework to have a wide

choice of supply options.

This Framework Lot is seeking to host a number of Suppliers of ETMs capable of withstanding exposed weather conditions for passenger transport services, who are committed to partnership working and the application of ITSO, EMV, ABT, Barcode and other forms of electronic ticketing for passengers.

This Framework Lot will be available for all public sector bodies in the UK, including Local Authorities, Highway Authorities, Combined Authorities, and Regional Transport Authorities in England, Wales, Scotland, and Northern Ireland as well as National Transport Bodies such as Transport for Wales, Transport Scotland, Translink and the Department for Transport.

It will also be available for use by any bus/rail/tram/ferry operator in the UK. More detail of who the Framework is for, is outlined in Section VI.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

48

This contract is subject to renewal

Yes

Description of renewals

Because of the specialist nature of the technology and interface requirements, the

Framework Agreement may be renewed for up to 2 additional 12 month periods - making a maximum Framework length of 70 months.

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: Yes

Description of options

An agreement term may be extended from a standard 48 month term, by up to 2×12 month periods, making the maximum term available 72 months.

II.2.12) Information about electronic catalogues

Tenders must be presented in the form of electronic catalogues or include an electronic catalogue

II.2.14) Additional information

A copy of the ITT with all bidding information can be obtained by request, by emailing: procurement@nationalmobilitiesprocurementhub.co.uk

Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.1) Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions

A Selection Questionnaire is included in the ITT that stipulates SAM's criteria.

III.1.2) Economic and financial standing

Selection criteria as stated in the procurement documents

III.1.3) Technical and professional ability

Selection criteria as stated in the procurement documents

III.2) Conditions related to the contract

III.2.3) Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Open procedure

IV.1.3) Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

Framework agreement with several operators

Envisaged maximum number of participants to the framework agreement: 10

In the case of framework agreements, provide justification for any duration exceeding 4 years:

The specialist nature of the Equipment and Services being sought.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.1) Previous publication concerning this procedure

Notice number: <u>2022/S 000-023455</u>

IV.2.2) Time limit for receipt of tenders or requests to participate

Date

26 October 2022

Local time

12:00pm

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

IV.2.6) Minimum time frame during which the tenderer must maintain the tender

Duration in months: 12 (from the date stated for receipt of tender)

IV.2.7) Conditions for opening of tenders

Date

26 October 2022

Local time

12:01pm

Section VI. Complementary information

VI.1) Information about recurrence

This is a recurrent procurement: No

VI.3) Additional information

The National Mobilities Procurement Hub (NMPH) is a national resource for all UK based Public Sector Bodies, with a Transport responsibility or interest; as well as for all bus and rail operators in the UK.

For the avoidance of doubt, the Framework has been developed for the following public sector organisations as a minimum:

Scottish Local Authorities

Aberdeen City Council
