Other type

University

I.5) Main activity

Education

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

SparkFund - The provision of equipment and consultancy services

Reference number

DN1399

II.1.2) Main CPV code

- 79800000 - Printing and related services

II.1.3) Type of contract

Services

II.1.4) Short description

SparkFund is an ERDF funded grants programme available to Small & Medium Sized Enterprises (SMEs), located in either the Humber of York & North Yorkshire Local Enterprise Partnership (LEP) areas. The total value of the programme is £17.8m and it is in receipt of £9.8m of ERDF grant funding. SparkFund is led and managed by the University of Hull and a dedicated SparkFund Team has been established to act as the direct interface with eligible SMEs and to support them to scope, design and successfully procure goods and/or services.

The grant recipient, Additive-X Ltd wish to enhance their facilities and service offering at their main site in Ripon. The facility and technologies will provide manufacture of parts as well as tools, prototypes, jigs and fittings and will be able to print in materials suitable for a wide range of industries and applications.

This is a low-carbon R&D project requiring energy-efficient additive manufacturing of end-use parts at scale, with the least possible waste.

In order to achieve their aims Additive-X wish to purchase equipment which is the very latest cutting-edge technology to help future-proof the project.

II.1.5) Estimated total value

Value excluding VAT: £227,997.6

II.1.6) Information about lots

This contract is divided into lots: Yes

Tenders may be submitted for all lots

II.2) Description

II.2.1) Title

Large build volume, fast Fused Filament Fibre 3D printer capable of printing with continuous fibre reinforcement.

Lot No

1

II.2.2) Additional CPV code(s)

- 30232000 - Peripheral equipment

II.2.3) Place of performance

NUTS codes

- UKE - Yorkshire and the Humber

II.2.4) Description of the procurement

This 3D printer must be easy to use, cutting-edge technology capable of high speed, high quality prints and strong parts suitable for demanding applications.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £30,998

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Start date

15 November 2022

End date

7 February 2023

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: Yes

Identification of the project

European Structural Investment Funds

II.2) Description

II.2.1) Title

SLS 3D printing system safe to use in a workshop environment, capable of printing with Nylon 11 CF, with maximum powder recycling.

Lot No

2

II.2.2) Additional CPV code(s)

- 30232000 - Peripheral equipment

II.2.3) Place of performance

NUTS codes

- UKE - Yorkshire and the Humber

II.2.4) Description of the procurement

Easy to use powder technology 3D printer, fast printing with large build volume for lower cost and energy use per part, plus printing with 100% recycled material. The printer must have the following features as a minimum:

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £150,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Start date

15 November 2022

End date

7 February 2023

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: Yes

Identification of the project

European Structural Investment Funds (ESIF)

II.2) Description

II.2.1) Title

Handheld 3D scanner with reverse engineering solution including turntable and software.
Specification requirements as follows;

Lot No

3

II.2.2) Additional CPV code(s)

- 30232000 - Peripheral equipment

II.2.3) Place of performance

NUTS codes

- UKE - Yorkshire and the Humber

II.2.4) Description of the procurement

Handheld 3D scanner with reverse engineering solution including turntable and software.
Specification requirements as follows

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £9,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Start date

15 November 2022

End date

7 February 2023

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: Yes

Identification of the project

European Structural Investment Funds (ESIF)

Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.2) Economic and financial standing

Selection criteria as stated in the procurement documents

III.1.3) Technical and professional ability

Selection criteria as stated in the procurement documents

III.2) Conditions related to the contract

III.2.3) Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract

Section IV. Procedure

IV.1) Description
