Conservation, Heritage and Tourism

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Request for Information - Glasgow Cathedral Lighting Design

II.1.2) Main CPV code

- 71318100 - Artificial and natural lighting engineering services for buildings

II.1.3) Type of contract

Services

II.1.4) Short description

Historic Environment Scotland (HES) is undertaking market research in relation to the delivery of a refurbishment of the electrical and lighting systems at Glasgow Cathedral. We want to hear from suppliers with a proven track record in the field of lighting design in order to provide us with a detailed understanding of the market and what it can offer. Due to the significance of Glasgow Cathedral, we require more than just functional illuminance; this lighting design must complement and enhance the aesthetic qualities of the building. The lighting designer will need to consider the requirements of the congregation, the experience of visitors to the site, all while ensuring that the lighting is energy-efficient and easy to maintain. Glasgow Cathedral is a site of global significance and one of the grandest properties on the HES estate, and we intend for its new lighting installation to compare favourably against those at similar locations around the world

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 31527260 - Lighting systems

II.2.3) Place of performance

NUTS codes

- UKM82 - Glasgow City

Main site or place of performance

Glasgow Cathedral

II.2.4) Description of the procurement

Historic Environment Scotland (HES) is undertaking market research in relation to the delivery of a refurbishment of the electrical and lighting systems at Glasgow Cathedral. We want to hear from suppliers with a proven track record in the field of lighting design in order to provide us with a detailed understanding of the market and what it can offer.

Due to the significance of Glasgow Cathedral, we require more than just functional illuminance; this lighting design must complement and enhance the aesthetic qualities of the building. The lighting designer will need to consider the requirements of the congregation, the experience of visitors to the site, all while ensuring that the lighting is energy-efficient and easy to maintain.

Glasgow Cathedral is a site of global significance and one of the grandest properties on the HES estate, and we intend for its new lighting installation to compare favourably against those at similar locations around the world
