Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated without a prior call for competition

- The works, supplies or services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

SWISCo Ltd is required to install a fire detection and suppression system in order to be compliant with the requirements of the Environment Agency regarding the waste operations permit to operate the waste transfer stations and the associated Fire Prevention Plan (FPP). Due to the need to bring the site up to compliant standard as soon as possible to prevent intervention by the Environment Agency and the limited supply market for the system they are intending to purchase, quotes were sought directly from the 3 main UK suppliers without publication of a contract notice. Two of the three suppliers contacted provided prices for the supply, installation and ongoing monitoring / maintenance. SWISCo is intending to award the contract to the selected supplier on the basis that they are able to meet all of their requirements for the system, the system is uniquely compatible with the significantly limited area on site for installation. They are also able to install within the required timescales, which will be agreed following final approval of the FPP by the Environment Agency.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section V. Award of contract/concession

Contract No

TSW7924

A contract/lot is awarded: Yes
