Tenders or requests to participate must be submitted to the above-mentioned address

I.6) Main activity

Water

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Supply of Water Sampling Kiosks

Reference number

SW21/CI/1362

II.1.2) Main CPV code

- 44211000 - Prefabricated buildings

II.1.3) Type of contract

Supplies

II.1.4) Short description

Scottish Water is looking to appoint supply chain partner(s) to provide a variety of modular Water Sampling Kiosks. The kiosks shall be assembled in a 'factory' environment producing tested and fully functional units of a standardised and repeatable design for delivery to site ready for off-loading to a pre-prepared foundation slab or final installation area.

Water sampling kiosks are used to monitor the water quality produced at Scottish Water sites and within its networks. It is important that sampling kiosks are of sufficient quality to provide accurate samples for analysis and meet regulatory compliance requirements.

II.1.5) Estimated total value

Value excluding VAT: £28,000,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 42130000 - Taps, cocks, valves and similar appliances

- 38300000 - Measuring instruments
- 38570000 - Regulating and controlling instruments and apparatus

II.2.3) Place of performance

NUTS codes

- UKM - Scotland

Main site or place of performance

SCOTLAND

II.2.4) Description of the procurement

Scottish Water is looking to appoint supply chain partner(s) to provide a variety of modular Water Sampling Kiosks. The kiosks shall be assembled in a 'factory' environment producing tested and fully functional units of a standardised and repeatable design for delivery to site ready for off-loading to a pre-prepared foundation slab or final installation area.

The Scottish Water area covers all mainland and islands of Scotland including urban and rural locations. It is preferable that framework suppliers shall be able to deliver pan Scotland, though successful suppliers shall be allocated a geographic location. Scottish Water retains the right to ensure complete geographical coverage from the framework.

Water sampling kiosks are used to monitor the water quality produced at Scottish Water sites and within its networks. It is important that sampling kiosks are of sufficient quality to provide accurate samples for analysis and meet regulatory compliance requirements. A standard product range (a complete design with full support documentation) will be used to ensure efficient delivery of quality compliant standardised kiosks that provide a safe and effective working environment for samplers across the Scottish Water estate.

The scope will include but is not limited to:

1. Off-site fabrication/assembly of Water Sampling Kiosks including associated components, pipe work, sample taps, electrical installation, and control systems.

2. Water sampling kiosks of various options including,

- Various sizes including walk-in, floor standing, and wall mounted.
- Non powered suitable for extracting water sample based on available pressure.

- Mains powered to enable a pumped water sample.
 - Solar panel powered with batteries, where robust ethical supply chain sourcing can be assured/certified.
3. Production of products/equipment that is fully compliant with Scottish Water's specification.
 4. Modular units are to be delivered, including off-loading, to site complete, tested, ready for installation and commissioning by others.
 5. Factory finished assemblies to be developed using proprietary modular equipment and associated components sourced from Scottish Water's current framework agreements and the open market.
 6. Operation and Maintenance manuals to be provided.
 7. The capabilities required from the supply chain partner include design, product development acceptance, implementation/user training and a strong and robust procurement and material planning capability.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.6) Estimated value

Value excluding VAT: £28,000,000

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

96

This contract is subject to renewal

Yes

Description of renewals

Duration is a 4 year initial period with the option to extend for a further 4 x 12 months periods, subject to the sole discretion of Scottish Water.

II.2.9) Information about the limits on the number of candidates to be invited

Envisaged minimum number: 3

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2.14) Additional information

The PQQ documents can also be accessed by logging in through the Scottish Water Delta e-sourcing webpage <https://scottishwater.delta-e-sourcing.com/> and through the Response Manager section using the following access code:F8A6668V6Z.

The estimated contract value is subject to annual adjustment in line with inflation.

Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.1) Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions

Relevant electrical accreditations or membership of professional/trade bodies held by your organisation and/or staff or subcontractors, such as NICEIC/Select or equivalent.

III.1.2) Economic and financial standing

Minimum level(s) of standards possibly required

Applicants will be expected to be of sufficient financial and economic standing to support the anticipated contract value. All applicants must complete the financial questions within the pre-qualification questionnaire and tender documents. Financial standing relevant to

the anticipated contract value will be determined by Scottish Water based on the response to the pre-qualification questionnaire and any further financial checks deemed necessary.

III.1.3) Technical and professional ability

Selection criteria as stated in the procurement documents

III.1.6) Deposits and guarantees required

Scottish Water reserves the right to require deposits, guarantees, bonds or other forms of appropriate security.

III.1.7) Main financing conditions and payment arrangements and/or reference to the relevant provisions governing them

All prices quoted shall be in Sterling (UK) and all payments shall be made in Sterling (UK). Payment shall be made on the basis of completed services in accordance with the agreed contract rates, schedules and conditions of contract.

III.1.8) Legal form to be taken by the group of economic operators to whom the contract is to be awarded

In the event of a group of companies submitting an accepted offer it will be necessary for each member of the group to sign an undertaking that each company in the group will be jointly and severally liable for the satisfactory performance of the contract.

III.2) Conditions related to the contract

III.2.2) Contract performance conditions

Bidders must comply with modern slavery act and operate an ethical supply chain.

III.2.3) Information about staff responsible for the performance of the contract

Obligation to indicate the names and professional qualifications of the staff assigned to performing the contract

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated procedure with prior call for competition

IV.1.3) Information about a framework agreement or a dynamic purchasing system

The procurement involves the establishment of a framework agreement

Framework agreement with several operators

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.2) Time limit for receipt of tenders or requests to participate

Date

21 October 2022

Local time

12:00pm

IV.2.4) Languages in which tenders or requests to participate may be submitted

English

Section VI. Complementary information

VI.1) Information about recurrence

This is a recurrent procurement: No

VI.2) Information about electronic workflows

Electronic ordering will be used

Electronic invoicing will be accepted

Electronic payment will be used

VI.3) Additional information

Scottish Water will not accept the SPD. We will only accept a completed Scottish Water PQQ document. This Notice does not preclude Scottish Water from issuing other notices for specific requirements. Responses to the FTS Notice will be evaluated and only successful applicants following PQQ evaluation will be invited to submit a tender. Applicants who fail to supply all of the information requested in response to this Notice or any resulting tender exercise may risk elimination.
