Options: Yes

Description of options

Total contract length of 7 years (5 years followed by 2 option years).

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Negotiated without a prior call for competition

- No tenders or no suitable tenders/requests to participate in response to open procedure
- The products involved are manufactured purely for the purpose of research, experiment, study or development

Explanation:

Following the completion of the recent tender exercise for the Supply of Colours & Standards (LSL/DC/0119), and having received no compliant bids, our incumbent supplier of these ranges informed us that they would no longer be in a position to support this range of items going forward. In light of this, Leidos Supply Ltd intends to award a maximum term framework agreement of 7 years (5+1+1 Years) to The Wyedean Weaving Co Ltd.

There is a need to ensure continuity of supply for the goods in question, that are deemed essential by our Customer, and as such Leidos Supply Ltd will be looking to award a framework under Regulation 32(2) (a) of the Public Contract Regulations 2015, which allows for the use of the negotiated procedure without prior publication “where no tenders, no suitable tenders, no requests to participate or no suitable requests to participate have been submitted in response to an open procedure or a restricted procedure, provided that the initial conditions of the contract are not substantially altered”.

The subject matter of this framework is very technical/ specialist, and as such, there is a genuine lack of compliant competition within the market. This was confirmed during the recent tender, concluded earlier this year, which resulted in no bidders being able to meet the minimum standard required for the tender, though the incumbent (who has since advised that they will no longer be in a position to support this range going forward) did meet the technical standard and a second bidder, The Wyedean Weaving Co Ltd, were very close to meeting the technical standard. On this basis, it would also be appropriate to refer to Regulation 32(2) (B) (ii) of the Public Contract Regulations 2015, which allows for the use of the negotiated procedure without prior publication “where the works, supplies or services can be supplied only by a particular economic operator” where “competition is absent for technical reasons”.

This Framework will have a maximum term of 7 years (5 + 1 + 1), which is considered justifiable in that the subject matter of the framework is deemed technical and due to this,

any future supplier of this range will require a significant initial investment, which includes, but is not limited to the expansion of premises, and the employment of new staff or upskilling of existing members of staff. This initial investment would be prohibitive for suppliers should the term of the framework be only for 4 years, as this investment would be disproportionate to the profit a supplier would expect to make on a framework of this term.

In light of this, Leidos Supply Ltd intends to utilise Regulation 33 (3) of the Public Contract Regulations 2015, which states that the term of a framework agreement may exceed 4 years, “in exceptional cases, justified in particular by the subject – matter of the framework agreement.”

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.1) Previous publication concerning this procedure

Notice number: [2021/S 000-019668](#)
