https://www.england.nhs.uk//

I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Health

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

High Intensity Use

II.1.2) Main CPV code

• 79410000 - Business and management consultancy services

II.1.3) Type of contract

Services

II.1.4) Short description

High Intensity Use (HIU) provides national support to health systems. Currently established in approximately 70% of health systems and with internal and external evaluation showing very positive results both financially and in terms of patient care.

We require external expertise and resources to ensure we can continue to deliver, maintain and grow. The programme and service has spread across a number of CCGs

(now moving to ICS footprint) with local health systems indicating implementation and further systems in development or discussion to progress this intervention.

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £197,200

II.2) Description

II.2.2) Additional CPV code(s)

• 85100000 - Health services

II.2.3) Place of performance

NUTS codes

• UK - United Kingdom

II.2.4) Description of the procurement

High Intensity Use (HIU) provides national support to health systems. Currently established in approximately 70% of health systems and with internal and external evaluation showing very positive results both financially and in terms of patient care. 100% coverage of this programme will support several of NHS England's objectives such as:

- Transform and build community services' capacity to deliver more care at home and improve hospital discharge.
- Improve the responsiveness of urgent and emergency care and community care keeping patients safe and offering the right care, at the right time, in the right setting. This needs to be supported by creating the equivalent of 5,000 additional beds, through expansion of virtual ward models, and includes eliminating 12-hour waits in emergency departments and minimising ambulance handover delays.

100% coverage will help to reduce health inequalities recent Red Cross research shows a strong correlation between HIU and the most deprived populations) and support the recovery of services through freeing up capacity at A&E and managing flow in other settings.

This model supports all 42Integrated Care Services (ICSs) in delivering their four core

purposes of improving outcomes in population health and healthcare; Tackling inequalities in outcomes, experience and access; Enhancing productivity and value for money; and helping the NHS to support broader social and economic development. This improvement in patient care will support the most vulnerable in society.

We require external expertise and resources to ensure we can continue to deliver, maintain and grow. The programme and service has spread across a number of CCGs (now moving to ICS footprint) with local health systems indicating implementation and further systems in development or discussion to progress this intervention.

II.2.5) Award criteria

Quality criterion - Name: Technical / Weighting: 60

Cost criterion - Name: Price / Weighting: 30

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Open procedure

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

IV.2) Administrative information

IV.2.1) Previous publication concerning this procedure

Notice number: 2022/S 000-015064

Section V. Award of contract

A contract/lot is awarded: Yes

V.2) Award of contract

V.2.1) Date of conclusion of the contract

1 September 2022

V.2.2) Information about tenders
