Dorset SARC services aim to increase equity of access and ensure a consistent and high standard of quality care to victims of sexual assault. The service will be delivered in line with current national standards, regulations and governance and be designed to meet the needs of the local population.

The services within scope include core SARC provision, SARC management, the provision of medical and forensic examinations (both acute and non-recent), crisis support and onward referral services for people who have experienced sexual assault. It should be noted that non-recent cases for children aged 12 years and under are out of scope of the SARC contract and will not be undertaken at the (accredited) SARC site.

Independent Sexual Violence Advisor (ISVA) services and therapeutic provision including counselling and talking therapies will be out of scope. However, the new SARC provider will work closely with these services and ensure service users are referred to onward provision as appropriate.
