Section II: Object

II.1) Scope of the procurement

II.1.1) Title

HWRC Waste Streams & Contingency Requirements

Reference number

DGCC-00357

II.1.2) Main CPV code

- 90514000 - Refuse recycling services

II.1.3) Type of contract

Services

II.1.4) Short description

Dumfries and Galloway Council's Waste Service is seeking to appoint suitably licenced service providers to receive, treat, and/or dispose a number of waste streams with a view to managing the waste in accordance with the waste hierarchy.

II.1.5) Estimated total value

Value excluding VAT: £3,008,000

II.1.6) Information about lots

This contract is divided into lots: Yes

Tenders may be submitted for maximum number of lots
24

II.2) Description

II.2.1) Title

Lot 2b - Bulky Waste (west)

Lot No

3

II.2.2) Additional CPV code(s)

- 90500000 - Refuse and waste related services
- 90513000 - Non-hazardous refuse and waste treatment and disposal services
- 90514000 - Refuse recycling services
- 90513100 - Household-refuse disposal services

II.2.3) Place of performance

NUTS codes

- UKM92 - Dumfries & Galloway

Main site or place of performance

Within the Dumfries and Galloway region of Scotland, the “Stranraer Zero Waste Park” is located in Blackparks Industrial Estate.

II.2.4) Description of the procurement

This Lot is seeking the provision of a suitably permitted or licensed waste reception facility to receive Bulky Waste from HWRCs and other sources within the Wigtown operational area of the region. The facility must be within approximately 10 miles by road of Stranraer Zero Waste Park. Upon receipt of the waste the service provider must ensure that it is stored, transported, treated and disposed of properly and in accordance with all applicable laws, permissions, consents, licences, permits and the waste duty of care requirements. Treatment options offered should be as far up the waste hierarchy as possible. Deliveries to the Service Providers Nominated Facility may include material collected by the Council’s bulky collection service and/or skip services, including bulky and small mixed material aggregated at Household Waste Recycling Centres (HWRCs) or other bulking point(s) in a mixed form. Material is likely to include large household or commercial items such as furniture, mattresses, carpets, mixed garden waste and items from DIY-type construction operations. Material may include arisings from building maintenance, housing clearance/refurbishment, roads, grounds maintenance, street sweepings, litter picking, fly tipping, site clearance, country parks, education and other Council services and commercial customer’s waste. Additional material arisings could include wood, plastic, metal, glass, tiles and ceramics.

This Lot will be delivered by the Council in either roll-on roll-off skip vehicles; caged tipper vehicles; or walking floor articulated vehicles.

(EWC 20 03 07)

II.2.5) Award criteria

Quality criterion - Name: Quality / Weighting: 40

Price - Weighting: 60

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

36

This contract is subject to renewal

Yes

Description of renewals

The contract will operate for an initial three year period with an option to extend for a further 12-month period.

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2) Description

II.2.1) Title

Lot 2a - Bulky Waste (east)

Lot No

2

II.2.2) Additional CPV code(s)

- 90514000 - Refuse recycling services
- 90500000 - Refuse and waste related services
- 90513000 - Non-hazardous refuse and waste treatment and disposal services
- 90513100 - Household-refuse disposal services

II.2.3) Place of performance

NUTS codes

- UKM92 - Dumfries & Galloway

Main site or place of performance

Within the Dumfries and Galloway region of Scotland, the "Locahar-Moss MBT facility" is located on Lockerbie Road.

II.2.4) Description of the procurement

This Lot is seeking the provision of a suitably permitted or licensed waste reception facility to receive Bulky Waste from HWRCs and other sources within the Stewartry, Nithsdale and Annandale & Eskdale operational areas of the region. The facility must be within approximately 5 miles by road of Dumfries MBT plant. Upon receipt of the waste the service provider must ensure that it is stored, transported, treated and disposed of properly and in accordance with all applicable laws, permissions, consents, licences, permits and the waste duty of care requirements. Treatment options offered should be as far up the waste hierarchy as possible. Deliveries to the Service Providers Nominated Facility may include material collected by the Council's bulky collection service and/or skip services, including bulky and small mixed material aggregated at Household Waste Recycling Centres (HWRCs) or other bulking point(s) in a mixed form. Material is likely to include large household or commercial items such as furniture, mattresses, carpets, mixed garden waste and items from DIY-type construction operations. Material may include arisings from building maintenance, housing clearance/refurbishment, roads, grounds maintenance, street sweepings, litter picking, fly tipping, site clearance, country parks, education and other Council services and commercial customer's waste. Additional material arisings could include wood, plastic, metal, glass, tiles and ceramics.

This Lot will be delivered by the Council in either roll-on roll-off skip vehicles; caged tipper vehicles; or walking floor articulated vehicles.

Quality criterion - Name: Quality / Weighting: 40

Price - Weighting: 60

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

36

This contract is subject to renewal

Yes

Description of renewals

This contract will operate for a three year period with an option to extend for a further 12-month period.

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2) Description

II.2.1) Title

Lot 1 - Residual Waste from HWRCs

Lot No

1

II.2.2) Additional CPV code(s)

- 90500000 - Refuse and waste related services
- 90513000 - Non-hazardous refuse and waste treatment and disposal services
- 90514000 - Refuse recycling services
- 90513100 - Household-refuse disposal services

II.2.3) Place of performance

NUTS codes

- UKM92 - Dumfries & Galloway

Main site or place of performance

Within the Dumfries and Galloway region of Scotland, the “Lochar-Moss MBT facility” is located on Lockerbie Road.

II.2.4) Description of the procurement

This waste stream consists of general mixed waste deposited by householders in the ‘small non-recyclable waste’ skip at our HWRCs (i.e., this is what is sometimes referred to as “black bag” waste).

This Lot will be delivered by the Council in either roll-on roll-off skip vehicles or caged tipper vehicles. Despite the lot title, it may include residual waste from sources other than DGC’s HWRCs, for example, deliveries of fly tipped waste by collection service staff in small, caged tippers or perhaps panel vans.

(EWC 20 03 01)

II.2.5) Award criteria

Quality criterion - Name: Quality / Weighting: 40

Price - Weighting: 60

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

Duration in months

36

This contract is subject to renewal

Yes

Description of renewals

The contract will operate for an initial three year period with an option to extend for a further 12-month period.

II.2.10) Information about variants

Variants will be accepted: No

The procurement is related to a project and/or programme financed by European Union funds: No

II.2) Description

II.2.1) Title

Lot 3a – Green (garden) Waste (Annan)

Lot No

4

II.2.2) Additional CPV code(s)

- 90500000 - Refuse and waste related services
- 90513000 - Non-hazardous refuse and waste treatment and disposal services
- 90514000 - Refuse recycling services
- 90513100 - Household-refuse disposal services

II.2.3) Place of performance

NUTS codes

- UKM92 - Dumfries & Galloway

Main site or place of performance

Within the Dumfries and Galloway region of Scotland, the “Annan HWRC & Waste

Transfer Station” is located on Eaglesfield Road.

II.2.4) Description of the procurement

This Lot is seeking the provision of a suitably permitted or licensed waste reception facility to receive Green Waste. The facility must be within approximately 50 miles by road of Annan HWRC. Upon receipt of the waste the Service Provider must ensure that it is stored, transported, treated and disposed of properly and in accordance with all applicable laws, permissions, consents, licences, permits and the waste duty of care requirements. Treatment options offered should be as far up the waste hierarchy as possible. Deliveries to the reception facility may include material generated by the Council's Parks & Gardens/Communities service and household green waste from the Council's HWRCs. Treatment solutions should be compliant with and verifiable to the British Standards Institution's Publicly Available Specification (BSI PAS 100 standard).

This Lot will be delivered by the Council in either roll-on roll-off skip vehicles; caged tipper vehicles; or walking floor articulated vehicles.

II.2) Description

II.2.1) Title

Lot 6b – Wood Waste (west)

Lot No

13

II.2.2) Additional CPV code(s)

- 03417000 - Scrap wood
- 90500000 - Refuse and waste related services
- 90513000 - Non-hazardous refuse and waste treatment and disposal services
- 90514000 - Refuse recycling services
- 90513100 - Household-refuse disposal services

II.2.3) Place of performance

NUTS codes

- UKM92 - Dumfries & Galloway

Main site or place of performance

Within the Dumfries and Galloway region of Scotland, the “Stranraer Zero Waste Park” is located in Blackparks Industrial Estate.

II.2.4) Description of the procurement

This Lot is seeking the collection and treatment of bulked wood waste from SZWP. Upon collection of the waste the Service Provider must ensure that it is stored, transported, treated and disposed of properly and in accordance with all applicable laws, permissions, consents, licences, permits and the waste duty of care requirements. Treatment options offered should be as far up the waste hierarchy as possible. This Lot is for wood of varying types, but typically it will be un-shredded. Material is likely to come predominately from Household Waste Recycling Centres and possibly other Council premises or operations. Material may be sorted or unsorted. There is no guarantee that waste wood will meet PAS104 or PAS111 standards. It is recognised therefore that both low-grade, (suitable for some processing and power and heat generation) and high grade (as per PAS104) may be encountered. Materials likely to be included within scope are processed Hardwood, MDF, Chipboard, Plywood and/or Blockboard.

This Lot will be collected by the winning bidder in their own (or a suitably qualified sub-contractor's) walking floor articulated vehicle, or another suitable vehicle type as agreed.

(EWC 20 01 38)

Description of renewals

The contract will operate for an initial three-year period with an option to extend for a further 12-month period.

II.2.10) Information about variants

Variants will be accepted: No

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

II.2) Description

II.2.1) Title

Lot 6a – Wood Waste (east)

Lot No

12

II.2.2) Additional CPV code(s)

- 03417000 - Scrap wood
- 90500000 - Refuse and waste related services

- 90513000 - Non-hazardous refuse and waste treatment and disposal services
- 90514000 - Refuse recycling services
- 90513100 - Household-refuse disposal services

II.2.3) Place of performance

NUTS codes

- UKM92 - Dumfries & Galloway

Main site or place of performance

Within the Dumfries and Galloway region of Scotland, the “Lochar-Moss MBT facility” is located on Lockerbie Road.

II.2.4) Description of the procurement

This Lot is seeking the provision of a suitably permitted or licensed waste reception facility to receive Wood Waste. The facility must be within approximately 5 miles of Dumfries MBT plant. Upon receipt of the waste the Service Provider must ensure that it is stored, transported, treated and disposed of properly and in accordance with all applicable laws, permissions, consents, licences, permits and the waste duty of care requirements. Treatment options offered should be as far up the waste hierarchy as possible. This Lot is for wood of varying types, but typically it will be un-shredded. Material is likely to come predominately from Household Waste Recycling Centres and possibly other Council premises or operations. Material may be sorted or unsorted. There is no guarantee that waste wood will meet PAS104 or PAS111 standards. It is recognised therefore that both low-grade, (suitable for some processing and power and heat generation) and high grade (as per PAS104) may be encountered. Materials likely to be included within scope are processed Hardwood, MDF, Chipboard, Plywood and/or Blockboard.

This Lot will be delivered by the Council in either roll-on roll-off skip vehicles; caged tipper vehicles; or walking floor articulated vehicles.

II.2) Description

II.2.1) Title

Lot 8a – Dewatered Gully Waste (east)

Lot No

16

II.2.2) Additional CPV code(s)

- 90500000 - Refuse and waste related services
- 90513000 - Non-hazardous refuse and waste treatment and disposal services
- 90514000 - Refuse recycling services
- 90513100 - Household-refuse disposal services

II.2.3) Place of performance

NUTS codes

- UKM92 - Dumfries & Galloway

Main site or place of performance

Within the Dumfries and Galloway region of Scotland, the “Lochar-Moss MBT facility” is located on Lockerbie Road.

II.2.4) Description of the procurement

This Lot is seeking the provision of a suitably permitted or licensed waste facility to receive Dewatered Gully Waste. Upon receipt of the waste the Service Provider must ensure that it is stored, transported, treated and disposed of properly and in accordance with all applicable laws, permissions, consents, licenses, permits and the waste duty of care requirements. Treatment options offered should be as far up the waste hierarchy as possible. DGC’s Dewatered Gully Waste – i.e., the solids left after the water is drained off

of the waste material that has been sucked out of roadside drains by a street sweeping vehicle – are anticipated to include a mixture of sand, grit, metal and organics. It is estimated there will be approximately 60-75% sand & aggregate and 25-40% organic material (e.g., leaves, twigs & litter etc.). The materials will be likely to include: 0-15mm gully arisings and 16-40mm gully arisings. This material is likely to require treatment to remove inert fractions, or fractions capable of treatment to allow diversion from landfill. DGC dewatering our Gully Waste is a new process, so the anticipated make-up of this waste material is estimated based on feedback from industry and other local authorities.

This Lot will be collected by the winning bidder in their own (or a suitably qualified sub-contractor's) vehicle from the Dumfries MBT plant. Provision of a skip container by the winning bidder is required for this lot. However, as this is a new waste material for DGC, we are open to suggestions for the best way to transport this waste to the winning bidders Nominated Facility.

II.2.3) Place of performance

NUTS codes

- UKM92 - Dumfries & Galloway

Main site or place of performance

Within the Dumfries and Galloway region of Scotland, collection is required from all 12 DGC HWRC's.

II.2.4) Description of the procurement

This Lot is seeking a suitably qualified Service Provider capable of delivering a service for the treatment, recovery, recycling, and disposal of tyres, which may include loose standard tyres and commercial tyres (steel banded). Tyres will be loose (i.e., not baled) and will be mainly domestic car and motorcycle tyres that are off rim. However, some may be on rim. Upon receipt of the waste the Service Provider must ensure that it is stored, transported, treated, and disposed of properly and in accordance with all applicable laws, permissions, consents, licenses, permits and the waste duty of care requirements. Treatment options offered should be as far up the waste hierarchy as possible.

This Lot will be collected by the winning bidder in their own (or a suitably qualified sub-

contractor's) box van vehicle, or another suitable vehicle type as agreed. Collection of Tyres is required from all 12 DGC Household Waste Recycling Centres (HWRCs)

II.2.3) Place of performance

NUTS codes

- UKM92 - Dumfries & Galloway

Main site or place of performance

Within the Dumfries and Galloway region of Scotland, the “Lochar-Moss MBT facility” is located on Lockerbie Road.

II.2.4) Description of the procurement

This Lot is seeking the provision of a suitably permitted or licensed waste reception facility to provide contingency arrangements to receive Residual Waste in RCVs from DGC's Waste Collection Service in the Nithsdale area of Dumfries and Galloway when the normal reception facility for residual waste in the Nithsdale area (the Dumfries MBT plant) is unavailable. The facility must be within approximately 5 miles by road of Dumfries MBT plant. Upon receipt of the waste the Service Provider must ensure that it is stored properly and in accordance with all applicable laws, permissions, consents, licences, permits and the waste duty of care requirements.

This lot differs from Lots 11a, 11b & 11c in that it is for the reception only of Nithsdale residual waste delivered by RCVs. It does not require any treatment. The waste will be delivered to the Service Provider's Nominated Facility by Council RCVs. The bulked waste will be collected from the Service Provider's Nominated Facility by a Council contracted third-party haulier using walking floor articulated vehicles. The Service Provider's Nominated Facility is required to load the outgoing third-party vehicles. The Residual Waste must not be processed or treated in any way, or be mixed with other waste streams or other customer's waste. This waste will be removed by the Council within 48 hours.

This Lot will be delivered by the Council in RCVs.

Section III. Legal, economic, financial and technical information

III.1) Conditions for participation

III.1.1) Suitability to pursue the professional activity, including requirements relating to enrolment on professional or trade registers

List and brief description of conditions

Bidders should hold any and all permits and licences and or, an ability to demonstrate any licence exemption, as required, including but not limited to: The Pollution Prevention and Control (Scotland) Regulations 2012; The Waste Management Licensing (Scotland) Regulations 2011 (as amended); and The Landfill (Scotland) Regulations 2003 (as amended) or the equivalent legislation in England and Wales, for all Waste Treatment facilities the bidder is offering, as issued by SEPA or their equivalent body in other jurisdictions. Details of the local Environmental Agency office that issued the licence(s) for the site or facility proposed should be provided.

Tenderers for all Lots must have the appropriate Pollution Prevention and Control (PPC) Permit, Waste Management Licence (WML) or relevant Waste Exemption demonstrating that their proposed initial waste destination (Service Provider's Nominated Facility) can legally accept, store and treat etc. any waste stream bid for.

Hold the required Waste Carrier Licences (or exemptions) in accordance with the Control of Pollution (Amendment) Act 1989 and The Controlled Waste (Registration of Carriers and Seizure of Vehicles) Regulations 1991 or equivalent

III.1.2) Economic and financial standing

Selection criteria as stated in the procurement documents

III.1.3) Technical and professional ability

Selection criteria as stated in the procurement documents

III.2) Conditions related to the contract

III.2.2) Contract performance conditions

For details of the conditions relevant to the contract, please see the Mechanical Biological Treatment (MBT) Outputs (MBT - ITT) Invitation to Tender and MBT Specification documents in the Public contract Scotland Tender site Buyer Attachments area of ITT 46032.
