The service is a Schedule 3 Service and is being procured under the Light Touch Regime (LTR) of the Public Contract Regulations 2015. The purpose of the procurement is to set up a multi-provider Framework Agreement. The Commissioner is seeking to set up a framework agreement with 3 providers. The selection of these providers will be based on the 3 highest scoring providers in response to this Invitation to Tender (ITT) process. The commissioner reserves the right to open future windows at their discretion if further capacity or choice is required.

The purpose of the Specialist Fertility Services is to provide a range of appropriate assisted conception services for couples who meet the eligibility criteria. The service aims to treat subfertility. The objective of treatment for subfertility is to achieve a successful pregnancy quickly and safely with the least intervention required and the delivery of a healthy child.

As a result of this procurement exercise an agreement will be established with the successful Bidder(s) for a period of 3 years with the Commissioner having the option to extend the contract for up to a further 2 years. The current contract(s) for the Services will end on 31st March 2023 and as a result the successful provider is expected to be fully operational, providing services from 01st April 2023.

Based on the current contracts it is anticipated that the service provision resultant of this procurement will have an annual expenditure of £1,200,000.00 per annum. However, all providers awarded to the framework agreement will have zero value contracts; no activity or spend is guaranteed as activity is driven by patient choice.
