Electronic communication requires the use of tools and devices that are not generally available. Unrestricted and full direct access to these tools and devices is possible, free of charge, at

<https://health-family.force.com/s/Welcome>

I.4) Type of the contracting authority

Ministry or any other national or federal authority

I.5) Main activity

Health

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

NHS Low Calorie Diet Programme

Reference number

C78909

II.1.2) Main CPV code

- 85100000 - Health services

II.1.3) Type of contract

Services

II.1.4) Short description

Over the last 2 years, NHS England has been testing real-world implementation models for delivering a Total Diet Replacement (TDR) based intervention to people with type 2 diabetes. NHS England has to date commissioned this service in 21 Integrated Care Systems (ICSs) and is now preparing to expand the programme further, to achieve full national coverage in 2023/24.

Purpose of this document

This notice aims to provide an update on plans to carry out a procurement process to invite bids to join a new national framework of Low Calorie Diet Programme providers. Details included here are provided to support potential providers to plan for the bidding period once the Invitation to Tender is published. All details described at this stage remain subject to change – information in the Invitation to Tender will take precedence over the information in this notice.

II.1.5) Estimated total value

Value excluding VAT: £20,000,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 98334000 - Wellness services
- 85140000 - Miscellaneous health services
- 85312320 - Counselling services
- 75200000 - Provision of services to the community
- 85312310 - Guidance services
- 85323000 - Community health services
- 15882000 - Dietetic products
- 98000000 - Other community, social and personal services
- 80000000 - Education and training services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

There will be a national procurement for a framework of up to 5 providers with call-off contracts being awarded on an Integrated Care System (ICS) footprint, with a phased roll-out across England in 2023/24.

Providers will be expected to develop their own relationships to ensure that they are able to offer the choice of delivery channels to individuals, as well as products and equipment as required within the service specification (including Total Diet Replacement (TDR) products that comply with all applicable legislative requirements and standards and equipment for monitoring weight, blood pressure and blood glucose), ensuring that the delivery channels are delivered through a single provider organisation, even where more than one organisation is involved such as a Lead Provider and sub-contractor arrangement. These relationships and the processes supporting them, will need to be clearly detailed in the bidding process.

II.3) Estimated date of publication of contract notice

20 September 2022

Section IV. Procedure

IV.1) Description

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section VI. Complementary information

VI.3) Additional information

Over the last 2 years, NHS England has been testing real-world implementation models for delivering a Total Diet Replacement (TDR) based intervention to people with type 2 diabetes. NHS England has to date commissioned this service in 21 Integrated Care Systems (ICSs) and is now preparing to expand the programme further, to achieve full national coverage in 2023/24.

More information about the NHS Low Calorie Diet Programme can be found [here](#).

Purpose of this document

This document aims to provide an update on plans to carry out a procurement process to invite bids to join a new national framework of Low Calorie Diet Programme providers. Details included here are provided to support potential providers to plan for the bidding period once the Invitation to Tender is published. All details described at this stage remain subject to change – information in the Invitation to Tender will take precedence over the information in this document.

Delivery channels and providing choice

The currently planned approach will require providers to offer a choice of delivery channels to eligible individuals choosing to join the programme. Individuals will have the right to choose to receive the support digitally or in-person through a one-to-one face to face model.

a. Digital: Contact between the provider and the participant would be via digital technology, through mediums such as online messaging, video calling, telephone conversations or using smart phone app. The digital provision must accommodate different levels of user capability to enable participants of varying levels of competency to access the intervention.

b. One to one (in person): Predominantly in-person one to one support package for the duration of the intervention.

Providers will be required to offer the programme in both formats, with an individual's choice of delivery model dependent on their preference. There must be a process in place to allow individuals to have a free and open choice of either delivery channel.

Payment model

NHS England plans to adopt a standardised payment profile for all providers, in line with the payment approach used during the pilot period. This aims to provide an incentive to enroll and retain more individuals on programmes.

The following table sets out the planned payment profile:

Percentage of the relevant price per individual which is paid once an individual reaches these milestones

Milestone 1 (assessment, attendance at first intervention session and commenced TDR) -30%

Milestone 2 (completion of 12 weeks of TDR) - 30%

Milestone 3 (completion of the whole programme) - 30%

Milestone 4 (outcome based – at least 10% weight loss at 12 months) - 10%

Next steps

Subject to internal approvals, it is anticipated that a Contract Notice and the Invitation to Tender will be published in September/October 2022 with call-off contracts awarded pursuant to mini-competitions before the end of May 2023.

NHS England is not inviting questions in response to this document. Once the Invitation to Tender has been published, there will be a period in which bidders are able to submit clarification questions.
