Other activity

Nuclear Decommissioning

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Breeder Fuel Test Rig

Reference number

C19853

II.1.2) Main CPV code

- 98391000 - Decommissioning services

II.1.3) Type of contract

Services

II.1.4) Short description

Rental and Technical Support for the Breeder Fuel Test Rig

II.1.6) Information about lots

This contract is divided into lots: No

II.1.7) Total value of the procurement (excluding VAT)

Value excluding VAT: £1,200,000

II.2) Description

II.2.2) Additional CPV code(s)

- 98391000 - Decommissioning services

II.2.3) Place of performance

NUTS codes

- UKM61 - Caithness & Sutherland and Ross & Cromarty

Main site or place of performance

Nuclear Restoration Services

Dounreay
By Thurso
Caithness
KW14 7TZ

II.2.4) Description of the procurement

Rental and Technical Support to the Breeder Fuel Test Rig.

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: Yes

Description of options

Contract is awarded on a 3+1+1 years basis, the final 2 years being optional

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

A contract is to be awarded by NRS using the negotiated procedure without prior publication for the Rental and Technical Support to the Breeder Fuel Test Rig. The award is being made relying on Reg 32(2)(b)(ii) of the PCR 2015 Regulations, as competition is absent for the technical reasons and no reasonable alternative or substitute exists. The reasons NRS considers Reg 32(2)(b)(ii) apply are as follows:

The Test Rig must be located near to the Dounreay Site (within 1 hours travelling time). This allows the live implementation of the techniques at Dounreay that are developed on the Test Rig in support of the Breeder Programme.

The Test Rig must be housed in a facility that has a minimum crane height of 16m due to the height of the test rig.

There would be considerable costs and risks involved in dismantling and re-erection of the Test Rig to another facility due the complex nature of the rig.

This work to dismantle and reassemble the Test Rig would take approximately 30-weeks which, if required, would significantly negatively impact the ability to meet the current programmed end date of the project.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section V. Award of contract/concession

A contract/lot is awarded: Yes

V.2) Award of contract/concession
