I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Education

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

3D Printers Lease

Reference number

T23/0122

II.1.2) Main CPV code

- 30232100 - Printers and plotters

II.1.3) Type of contract

Supplies

II.1.4) Short description

Lease of Fused Deposition Modeling (FDM) -Based 3D Printers for Educational and Research Purposes. The Engineering & Environment team of the University of Northumbria at Newcastle is preparing for an upcoming tender for the lease of 3D printers to enhance our teaching and research capabilities. The tender will cover the provision of 17 average-sized FDM 3D printers and 3 larger format printers. These printers will be utilised by a diverse range of users, from undergraduate students to professors, across various disciplines including architecture, engineering, and more.

II.1.5) Estimated total value

Value excluding VAT: £100,000

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UKC - North East (England)

Main site or place of performance

NORTH EAST (ENGLAND)

II.2.4) Description of the procurement

The Engineering & Environment team of the University of Northumbria at Newcastle is preparing for an upcoming tender for the lease of 3D printers to enhance our teaching and research capabilities. The tender will cover the provision of 17 average-sized FDM (Fused Deposition Modeling) 3D printers and 3 larger format printers. These printers will be utilised by a diverse range of users, from undergraduate students to professors, across various disciplines including architecture, engineering, and more. Scope of Requirement: - The leased 3D printers will support a wide range of activities, from producing intricate architectural models to creating structural engineering components. - Printers must be robust, user-friendly, and intuitive to accommodate users with varying levels of skills and knowledge. - Flexibility in the systems is essential to cater to different printing needs and applications. Objectives - Supply and lease 17 average-sized FDM-based 3D printers and 3 larger format printers. - Provide any necessary software and particle extraction systems. - Deliver comprehensive training and ongoing support.

II.2.14) Additional information

Suppliers are invited to register their interest in the upcoming tender and provide input on the specifications to align with industry standards. Feedback will be considered in finalizing the tender. To participate, express interest and submit input by 30.08.2024 via email to alex.lyubych@northumbria.ac.uk or register through Delta. We look forward to your participation.

II.3) Estimated date of publication of contract notice

23 August 2024

Section IV. Procedure

IV.1) Description
