Scope

Description

The requirement is to develop a list of Service Providers who can deliver an increased range of therapeutic support services to families and individuals. This requirement has arisen from the regions intention, supported by but not dependent on the Government's Adoption Support Fund Initiative to improve support to adoptive families and others.

By having access to a wide range of therapeutic interventions we plan to be able to offer a wide range of interventions which can support those families and individuals with a range of needs. These needs will be identified by an assessment conducted by relevant officers in each local Region.
