Contract

Design Innovation and Validation of TF Cable Prototype and S Coil Prototype?

United Kingdom Atomic Energy Authority

F03: Contract award notice
Notice identifier: 2024/S 000-026405
Procurement identifier (OCID): ocds-h6vhtk-0491fd
Published 20 August 2024, 9:34am

Section I: Contracting authority

I.1) Name and addresses

United Kingdom Atomic Energy Authority

Culham Campus

Abingdon

OX14 3DB

Contact

Catherine Sirotkin

Email

catherine.sirotkin@ukaea.uk

Telephone

+44 1235467082

Country

United Kingdom

Region code

UK - United Kingdom

National registration number

N/A

Internet address(es)

Main address

http://www.gov.uk/government/organisations/uk-atomic-energy-authority

Buyer's address

https://uk.eu-supply.com/ctm/Company/CompanyInformation/Index/72814

I.4) Type of the contracting authority

Body governed by public law

I.5) Main activity

Other activity

Fusion Research

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Design Innovation and Validation of TF Cable Prototype and S Coil Prototype?

Reference number

T/CS106/24

II.1.2) Main CPV code

- 73100000 - Research and experimental development services

II.1.3) Type of contract

Services

II.1.4) Short description

The UKAEA Spherical Tokamak for Energy Production (STEP) Confinement Systems team seeks a procurement partner to advance the manufacturing design of its high current density high temperature superconducting cable through an innovation programme structured into several phases. The contract will include hold points to assess satisfactory progress (both schedular and technical) within each phase, prior to proceeding to the next phase.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.2) Additional CPV code(s)

- 73100000 - Research and experimental development services

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

The UKAEA Spherical Tokamak for Energy Production (STEP) Confinement Systems team seeks a procurement partner to advance the manufacturing design of its high current density high temperature superconducting cable through an innovation programme structured into several phases. The contract will include hold points to assess satisfactory progress (both schedular and technical) within each phase, prior to proceeding to the next phase.

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

---

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- No tenders or no suitable tenders/requests to participate in response to open procedure

Explanation:

A PIN was released to the open market, with only one technically feasible supplier responding. The other PIN responses received indicated the required timelines wouldn't be feasible, and as such the open tender process was cancelled as per Regulation 32 (2a), with no suitable requests to participate submitted except from the Contractor.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: Yes

Section V. Award of contract

Contract No

1

Title

Design Innovation and Validation of TF Cable Prototype and S Coil Prototype?

A contract/lot is awarded: No

V.1) Information on non-award

The contract/lot is not awarded

No tenders or requests to participate were received or all were rejected

Section VI. Complementary information

VI.4) Procedures for review

VI.4.1) Review body

UK Atomic Energy Authority

Culham Science Centre

Abingdon

OX14 3DB

Country

United Kingdom

Internet address

https://www.gov.uk/government/organisations/uk-atomic-energy-authority

VI.4.2) Body responsible for mediation procedures

UK Atomic Energy Authority

Culham Science Centre

Abingdon

OX14 3DB

Country

United Kingdom

Internet address

https://www.gov.uk/government/organisations/uk-atomic-energy-authority

VI.4.3) Review procedure

Precise information on deadline(s) for review procedures

VI.4.2)Body responsible for mediation procedures

VI.4.3)Review procedure

Precise information on deadline(s) for review procedures:

The authority will incorporate a minimum 10 calendar day standstill period at the point information on the award of the contract is communicated to tenderers.

This period allows unsuccessful tenderers to seek further debriefing from the authority before a contract is entered into applicants have 2 working days from the notification of the award decision to request. Additional debriefing and that information have to be provided within a minimum of 3 working days before the expiry of the standstill period. Such additional information should be sought from the contact named in this notice.

If an appeal regarding the award of a contract has not been successfully resolved, the Public Contracts Regulations 2015 (SI 2015 No. 102) provide for aggrieved parties who have been harmed or are at risk of harm by a breach of the rules to take action in the High Court (England, Wales and Northern Ireland).

Any such action must be brought promptly.

(generally within 3 months).

VI.4.4) Service from which information about the review procedure may be obtained
