II.1.4) Short description

The Authority is seeking to procure Autism support services for People on Probation within the Swansea, Neath, Port Talbot Probation Delivery Unit (PDU) within the Wales probation region. The Authority is seeking to launch a competition in December 2021 using the Probation Service Dynamic Framework (PSDF), with an indicative contract award date of January 2022 and service commencement in February 2022.

A recent MOJ call for evidence on neurodivergence estimates that approximately 15-20% of the adult population has some form of neuro-divergence (ADHD, Dyslexia, Autism etc.) with Autism affecting 1-2% of the population. However, the evidence submitted also suggests that individuals with neuro-divergence are significantly over-represented in the Criminal Justice System with 5–7% of those referred to liaison and diversion services having an Autistic Spectrum Condition (ASC).

In order to better understand the needs of the caseload in Wales and to develop an approach which addresses the gap in specialist support for people with autism, the requirement is an initial pilot in the Swansea, Neath and Port Talbot PDU. The service is likely to involve an assessment, support for people on probation (including face to face delivery) and consultation support for Probation Practitioners where a person on probation does not wish to engage with the service provider but early assessment indicates a tailored approach would be beneficial. The intention is that the outcome of this pilot will help to inform future commissioning of an all Wales service.

Actions required:

1. Interested bidders should submit Selection Questionnaires in order to be qualified on to the Probation Service Dynamic Framework (PDSF) under service category DF.07
