## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

HPSW Regeneration 14/15 Dock; Survey, Design and Delivery

Reference number

SYS0094-01

#### **II.1.2) Main CPV code**

- 45248000 - Construction work for hydro-mechanical structures

#### **II.1.3) Type of contract**

Works

#### **II.1.4) Short description**

This project relates to the High Pressure Salt Water (HPSW) fire suppression system at 14 and 15 dock. A new HPSW system is required for vessels in wet dock and dry dock for fire suppression while maintenance work is ongoing. The initial phase of this project is survey & design, the contract may extend to build however this will be determined once the solution is established. Please note the information in this notice relates to whole project if build is included.

The aim of the initial phase is to survey and determine all the unknown variables and to produce a detailed design of a permanent solution for vessel fire suppression. Scope of the works may also include removal of any existing redundant systems required to install the new system, ground and engineering works required enable the system to be used as intended.
