II.1.4) Short description

Medication management is a fundamental component of the care provision we provide to our residents - providing the right drug, in the right dose, via the right route, at the right time. Our care homes are responsible for the safe storage and administration of medicines, ensuring policies and procedures are followed to safeguard our residents.

Most of our homes continue to use paper-based medication administrations records, however a positive response to a recent 'proof of concept' in a small number of homes has confirmed that rolling out an electronic medication administration record (EMAR) solution across all care homes is fundamental to meeting our business objectives.

It is our vision to build an ecosystem of technology enabled care provision, encompassing the capabilities critical to care.

II.1.5) Estimated total value

Value excluding VAT: £1
