Description

GBN's current strategic planning is that it requires a delivery partner to provide delivery and technical integration to the SMR project(s), including all sub-projects.

The Delivery Partner will provide project delivery capability, co-ordination, interface management, management of project baselines (including change control) throughout the project delivery lifecycle, and foster collaboration, continuous improvement and innovation across the project and supply chain. The DP(s) will manage contracts on behalf of the DevCo Client(s), overseeing delivery, construction, supply chain, and risk, and play a key role in alliance arrangements (i.e. collaboration arrangements to ensure cohesive delivery across multiple complex contracts). The detailed scope of the DP is still being finalised and will be subject to final approvals. It is not anticipated there will be any substantial change to the description set out in this pipeline.

Contract dates (estimated)

- 12 January 2027 to 12 January 2037
- 10 years, 1 day
