II.1.4) Short description

The Northern Ireland Precision Biomarkers and Therapeutics Consortium (NIPBT) is an industry-focused partnership of Life and Health Science (LHS) companies and Academia, aligned to NI Health and Economy strategies. By addressing critical commercial gaps, the Consortium's aim is to transform the productivity of each Commercial Partner and the broader LHS sector in NI. NIPBT will deploy the grant funding to collaboratively develop Research and Development capabilities that industry partners require. Queen's is leading the NIPBT and as such is tasked with procuring and overseeing the installation of two items of equipment to perform: (1) automated protein crystallization drop setting and (2) automated optimization of protein crystallization experiments. This equipment is to enhance our productivity in structural biology of proteins that is adaptable to the needs of various research groups. This equipment will be housed within the Health Sciences Building, Queen's University Belfast.

VI.4.3) Review procedure

Precise information on deadline(s) for review procedures

This authority will incorporate a standstill period at the point information on the award of the contract is communicated to Tenderers. That notification will provide full information on the award decision. The standstill period, which will be for a minimum of 10 calendar days, provides time for unsuccessful tenderers to challenge the award decision before the contract is entered into. The Public Contract Regulations 2015 (SI 2015/102) provide for aggrieved parties who have been harmed or are at risk of harm by a breach of the rules to take action in the High Court (England, Wales and Northern Ireland).
