II.2.3) Place of performance

NUTS codes

- UKC - North East (England)

II.2.4) Description of the procurement

A cloud/edge solution to facilitate selective processing of data from the data historian of Lot 4 either locally or within the cloud utilising established managed services. A deployment at multiple sites is desirable so please state deployment costs on a 'per site basis' where possible. CPI is seeking an innovative solution that (if possible) is agnostic to the cloud platform provider and that provides the option for CPI's clients to link-up their corporate cloud account to our hybrid deployment, thus allowing all data streams to be channelled directly to their own data lake (for example)
