Options: Yes

Description of options

Options for extended duration and for additional Work Packages

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The services can be provided only by a particular economic operator for the following reason:
 - absence of competition for technical reasons

Explanation:

The Lightning Delivery Team (LDT), part of the UK Ministry of Defence, intends to award a contract to BAE Systems (Operations) Limited ('BAES') to provide support to Mission Planning Environment (MPE) software integration. This will involve the running of software trials and developing reports to provide the Authority with evidence to support its safety assurance on the MPE software developed under the Lightning Programme. This evidence then forms the basis of the Authority's safety case approvals.

It is considered that this requirement can be placed using the Negotiated Procedure without prior publication of a contract notice pursuant to Regulation 16(1)(a)(ii) of the UK Defence and Security Public Contracts Regulations 2011. The Lightning Programme Prime Contractor, Lockheed Martin, will only share in-depth software details with BAES due to their position within the Programme. BAES possesses accreditation from LM and the US Government which enables them to access the software in accordance with security requirements. To conduct the level of safety assurance the Authority requires an independent organisation needs to have in-depth access to the software. No independent contractor other BAES would have such access. Significant additional risk would be carried in the operation of the Lightning without the level of assurance in the software that is provided by BAES. BAES have a representative test environment in which this software can be integrated with Lightning hardware and software to provide further assurance on the new MPE software.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section V. Award of contract

Contract No

705830450

Title

Support to Mission Planning Environment (MPE) Trials
