Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

The extension is considered lawful under Regulation 72(1)(e) because:

1. The modification does not render the contract materially different in character: The contract remains for the provision of HRIS services, albeit with updated technical features and a revised pricing mechanism. The core nature of the services remains unchanged.
2. The modification does not change the economic balance in favour of the contractor: While the pricing mechanism has been updated, Moat will ensure that the revised terms reflect reasonable compensation and do not result in over-compensation.
3. The modification does not considerably extend the scope of the contract: The extension is limited in duration and scope, intended solely to allow time for a compliant re-procurement process.
