VII.2) Information about modifications

VII.2.1) Description of the modifications

Nature and extent of the modifications (with indication of possible earlier changes to the contract):

Use of Modification clause to increase the capacity of successful providers delivering under the call off from the framework up to a maximum of 50% of their previous contract award value in order to meet need and fulfil the DfE funding requirements regarding volume of places delivered to eligible children and young people.

VII.2.2) Reasons for modification

Need for additional works, services or supplies by the original contractor/concessionaire.

Description of the economic or technical reasons and the inconvenience or duplication of cost preventing a change of contractor:

This modification was required due to an increase in budget available, due to underspend in the Summer and Easter Holiday Activity and Food scheme delivery. In order to increase capacity within existing provision with the funding made available by the DfE it was agreed to achieve the volumes required via purchase of additional places not previously able to be funded due to budget restrictions but which were applied for by the provider during the first call off application process. This was considered to be the most proportionate approach to allocate a portion of the additional funding that has become available (up to 50%). It will enable providers already operating in areas of need to be funded, to ensure that target figures of attendance are reached, and that Christmas 2022 budget is further committed without requiring the, predominantly SME's, to reapply and go through a further competitive process for the venues they have already secured recently. It was only a budget restriction that prevented them from being fully funding at the time of application and that restriction no longer applies.

VII.2.3) Increase in price

Updated total contract value before the modifications (taking into account possible earlier contract modifications, price adaptations and average inflation)

Value excluding VAT: £10,300,000

Total contract value after the modifications

Value excluding VAT: £10,300,000
