## **Section II: Object**

### **II.1) Scope of the procurement**

#### **II.1.1) Title**

Wind Turbine Feasibility Services

Reference number

DN739205

#### **II.1.2) Main CPV code**

- 71000000 - Architectural, construction, engineering and inspection services

#### **II.1.3) Type of contract**

Services

#### **II.1.4) Short description**

The Council wishes to tender openly for RIBA Stage 4 feasibility, techno-economic modelling and designs to build wind turbines on 2 separate council sites as shown in "Middleton Wind Potential Sites.png" and "SALC and Landfill Owership.pdf". This work is funded by UKSPF and must be delivered by 14 March 2025.

The deliverables should be split into two work packages (WP). WP 1 should include a high-level assessment to RIBA Stage 1 and 2 standard (and in) and shortlist options, identifying preferred projects that could be commercially viable. WP 2 should be contingent on the outcomes of WP1 and proceed to RIBA stages 3 and 4. The cost of each work package should be separated and a decision whether to proceed onto WP 2 will be required before work starts.

The output reports should be detailed enough to support a planning application. The techno-economic assessment and commercials should provide sufficient detail to form a robust business case and, critically, facilitate an investment decision to take the project(s) forward to RIBA 5 & 6.

#### **II.1.6) Information about lots**

This contract is divided into lots: No

## **II.2) Description**

### **II.2.3) Place of performance**

NUTS codes

- UK - United Kingdom

### **II.2.4) Description of the procurement**

The Council wishes to tender openly for RIBA Stage 4 feasibility, techno-economic modelling and designs to build wind turbines on 2 separate council sites as shown in "Middleton Wind Potential Sites.png" and "SALC and Landfill Owership.pdf". This work is funded by UKSPF and must be delivered by 14 March 2025.

The deliverables should be split into two work packages (WP). WP 1 should include a high-level assessment to RIBA Stage 1 and 2 standard (and in) and shortlist options, identifying preferred projects that could be commercially viable. WP 2 should be contingent on the outcomes of WP1 and proceed to RIBA stages 3 and 4. The cost of each work package should be separated and a decision whether to proceed onto WP 2 will be required before work starts.

The output reports should be detailed enough to support a planning application. The techno-economic assessment and commercials should provide sufficient detail to form a robust business case and, critically, facilitate an investment decision to take the project(s) forward to RIBA 5 & 6.

### **II.2.5) Award criteria**

Price is not the only award criterion and all criteria are stated only in the procurement documents

### **II.2.7) Duration of the contract, framework agreement or dynamic purchasing system**

End date

28 February 2025

This contract is subject to renewal

No

### **II.2.10) Information about variants**

Variants will be accepted: No

### **II.2.11) Information about options**

Options: No

### **II.2.13) Information about European Union Funds**

The procurement is related to a project and/or programme financed by European Union funds: No

---

## **Section IV. Procedure**
