Regional or local authority

I.5) Main activity

Environment

Section II: Object

II.1) Scope of the procurement

II.1.1) Title

Wind Turbine Feasibility Services

Reference number

DN739205

II.1.2) Main CPV code

- 71000000 - Architectural, construction, engineering and inspection services

II.1.3) Type of contract

Services

II.1.4) Short description

The Council wishes to tender openly for RIBA Stage 4 feasibility, techno-economic modelling and designs to build wind turbines on 2 separate council sites as shown in "Middleton Wind Potential Sites.png" and "SALC and Landfill Owership.pdf". This work is funded by UKSPF and must be delivered by 14 March 2025.

The deliverables should be split into two work packages (WP). WP 1 should include a high-level assessment to RIBA Stage 1 and 2 standard (and in) and shortlist options, identifying preferred projects that could be commercially viable. WP 2 should be contingent on the outcomes of WP1 and proceed to RIBA stages 3 and 4. The cost of each work package should be separated and a decision whether to proceed onto WP 2 will be required before work starts.

The output reports should be detailed enough to support a planning application. The techno-economic assessment and commercials should provide sufficient detail to form a robust business case and, critically, facilitate an investment decision to take the project(s) forward to RIBA 5 & 6.

II.1.6) Information about lots

This contract is divided into lots: No

II.2) Description

II.2.3) Place of performance

NUTS codes

- UK - United Kingdom

II.2.4) Description of the procurement

The Council wishes to tender openly for RIBA Stage 4 feasibility, techno-economic modelling and designs to build wind turbines on 2 separate council sites as shown in "Middleton Wind Potential Sites.png" and "SALC and Landfill Owership.pdf". This work is funded by UKSPF and must be delivered by 14 March 2025.

The deliverables should be split into two work packages (WP). WP 1 should include a high-level assessment to RIBA Stage 1 and 2 standard (and in) and shortlist options, identifying preferred projects that could be commercially viable. WP 2 should be contingent on the outcomes of WP1 and proceed to RIBA stages 3 and 4. The cost of each work package should be separated and a decision whether to proceed onto WP 2 will be required before work starts.

The output reports should be detailed enough to support a planning application. The techno-economic assessment and commercials should provide sufficient detail to form a robust business case and, critically, facilitate an investment decision to take the project(s) forward to RIBA 5 & 6.

II.2.5) Award criteria

Price is not the only award criterion and all criteria are stated only in the procurement documents

II.2.7) Duration of the contract, framework agreement or dynamic purchasing system

End date

28 February 2025

This contract is subject to renewal

No

II.2.10) Information about variants

Variants will be accepted: No
