II.1.4) Short description

The UK Ministry of Defence (MOD) currently operates a military fleet of BAe146 transport aircraft from RAF Northolt that will be withdrawn from service on 31 March 2022. The CSAT RECAP project aims to replace this capability by adopting a procurement strategy featuring two phases:

1. Phase 1: Competitive procurement of two civil Business Jets to be Accepted by 31 Mar 22 with an in-service support package that will run until 31 March 2024. Six, six-month Option periods (totaling 3 years) will be included in the Contract for continuation of the phase 1 in-service support as required. These aircraft will be owned by the MoD but operated on the Civil Aircraft Register and initially operated by contractor-provided civilian pilots. Phase 1 also includes the training of military pilots and cabin crew and the use of these service personnel to compliment the civilian pilots in the delivery of the service.

2. Phase 2: A separate competitive procurement for the embodiment of military modifications on the aircraft, from 1 April 2024 (subject to take-up of options), and provision of in-service support utilising military personnel in the operation of the aircraft, with an associated transfer of aircraft to the Military Aircraft Register.

NB – this contract advert is concerned exclusively with Phase 1.

II.2.4) Description of the procurement

CSAT RECAP Phase 1 requires delivery of 2 Aircraft to the Authority. Time is of the essence for the delivery of these 2 Aircraft, this shall be measured on whether the Aircraft are both Accepted by 31 March 2022. The Aircraft may initially be based from an Operating Base of the Contractor's choosing or RAF Northolt (NHT) but must transition to RAF NHT (which will become the Main Operating Base (MOB)) by Phase 1 Full Operating Capability (FOC). The Aircraft will need to achieve a minimum unrefueled range of 3,850nm from an unrestricted airfield transporting up to 8 passengers, 3 crew and associated baggage. The CSAT Recap Aircraft will be owned by MoD but will be leased back to the Contractor and operated during the period of Phase 1 on the Civil Aircraft Register by the Contractor who will assume all airworthiness responsibility.

CSAT RECAP Phase 1 requires delivery of up to 980 flying hours in the first year ending 31 March 2023 and up to 1200 flying hours in the second year, ending 31 March 2024 from the two Aircraft that are available. These services are to be available 7 days per week, 365 days per year from the Contractors Operating Base and/or the MOB. CSAT Recap requires delivery of a support arrangement that will incorporate all scheduled and unscheduled maintenance arisings where risk will be appropriately apportioned to ensure that a high level of Aircraft availability can be reasonably achieved. The solution also requires the Contractor to manage delivery of all Aircraft movements in accordance with tasking from the Authority. While civilian crews are required to pilot the Aircraft in Phase 1, this phase also includes a requirement to train an initial cadre of RAF pilots and cabin crew to supplement the civilian pilots in delivering the flying hours.

VI.3) Additional information

The Authority will comply with the Public Contract Regulations 2015 (PCR 2015) in respect of this procurement, using the Restricted Procedure.

The Defence Sourcing Portal (DSP) will be used to manage the DPQQ and Invitation to Tender (ITT) process, including evaluation. Access to the DSP is required to complete the DPQQ and it is recommended that access is requested via Supplier Registration Page.

An online Industry engagement event will be held in the week commencing 15 Nov 21. Expressions of interest to attend are invited no later than the 05 Nov 21 and must be made to desc17csae-commercial@mod.gov.uk

A bidders' conference will be held at RAF Northolt on a date during week commencing 13th December 2021.

The Authority trades using the electronic 'Contracting, Purchasing & Finance' system (CP&F). Before completing the DPQQ, any interested parties should ensure that they have the ability to trade electronically and the willingness connect to the CP&F System in the event of being successful.

A Cyber Risk Assessment has been conducted for this requirement to ascertain the level of Cyber Risk present. The result of this assessment is that a Cyber Risk level of 'Moderate' exists and therefore successful respondents invited to ITT will need to hold a Cyber Essentials [Plus] certificate and implement 'Moderate Controls' in accordance with Def Stan 05-138. Respondents can verify their readiness to comply with opportunities bearing this Cyber Risk Level by completing an Assurance Questionnaire using RAR code:168498601

Def Stan 05-138 available at:

<https://www.gov.uk/government/publications/cyber-security-for-defence-suppliers-def-stan-05-138>

To note: The issue of this Contract Notice (CN) or any future ITT or ITT material is not a commitment by the Authority to place a contract as a result of this competition or at a later stage. Any expenditure, work or effort undertaken prior to any offer and subsequent acceptance of contract, is a matter solely for your commercial judgement.
