Supplies

#### **II.1.4) Short description**

Our site safety and security is vital and enables us to deliver life's essential service to our customers, and maintaining our estate successfully is crucial to keeping our frontline operation working.

We have a challenging boundary products programme over the AMP8 period and we want to ensure that we have suppliers in place to support the success of our programme, working with us to design optimum whole life solutions and maintaining our existing estate so that we remain secure for AMP8 and beyond.

Boundary Products consist of fencing, automatic and manual gates, bollards, fencing/gate toppings, security barriers and hostile vehicle mitigation. We are looking for installing suppliers who can install the complete range.

We have split this agreement into the following lots:

Lot 1 - Supply, install and maintain new boundary products

Lot 2 - Maintenance of boundary products - London

Lot 3 - Maintenance of boundary products - Thames Valley and Home Counties

Note that due to the sensitive nature of this agreement, all bidders will need to complete a Non Disclosure Agreement before being granted access to the pre-qualification questionnaire and tender documents.
