The Commissioners would like to appoint service provider(s) for providing high quality Level 2 Intermediate Minor Oral Surgery (IMOS) including treatment under Conscious Sedation across the East Midlands. Intermediate Minor Oral Surgery is a referral service for people over the age of 16 years and is provided within a community setting. The service will provide specialist treatment e.g. complex dental extractions by a clinician with enhanced skills and experience that is either on the oral surgery specialist list or accredited in line with national guidance. Treatment may be provided under local anaesthetic and the clinician may use quality behavioural management techniques or provide treatment under conscious sedation where appropriate for minor oral surgery procedures.

The service objectives are to:

- ensure that equitable, accessible, cost effective, high quality IMOS Surgery including treatment under Conscious Sedation is available to the public within each ICB
- increase the availability and accessibility of the primary care based IMOS Services to those patients who require sedation to support them to receive a minor oral surgical procedure locally
- reduce the number of patients receiving minor oral surgical procedures under general anaesthesia
- to deliver clinical services based on best available evidence and will work to relevant clinical guidelines published by professional bodies, incorporating relevant best-practice principles
- to have appropriately registered, qualified, trained, accredited and experienced professionals to ensure that the complexity of the patient or procedure matches the skills and setting of the individual or team providing the treatment
- to deliver safe, high quality, patient-centred oral surgery services from primary care settings by named Performers
- to ensure that patients who most need the services are able to be referred to a local provider

II.2.14) Additional information

This is purely an early engagement exercise and does not commit the commissioners to carry out a procurement process. Any subsequent procurement will be advertised separately and all organisations wanting to participate will need to respond to the procurement advertisement as and when published.

Current services will remain in place during this period in line with existing contracts and service level agreements.

The procurement will be advertised in accordance with the requirements of the Public Contracts Regulations 2015 (as amended) (the “Regulations”) to the extent that the Regulations relate to services within the scope of Schedule 3 thereto (Social and Other Specific Services).

The Commissioner and AGCSU are, therefore, bound only by those parts of the Regulations applying to Schedule 3 services.
