Completion of the new database system.

II.2.5) Award criteria

Price

II.2.11) Information about options

Options: No

II.2.13) Information about European Union Funds

The procurement is related to a project and/or programme financed by European Union funds: No

Section IV. Procedure

IV.1) Description

IV.1.1) Type of procedure

Award of a contract without prior publication of a call for competition in the cases listed below

- The procurement falls outside the scope of application of the regulations

Explanation:

The STA is driven purely by procurement compliance and there is no cost to PHE. PHE have already reached the maximum value of the contract and any further extension would take it over 50% increased allowed by PCR Reg. 72. Therefore, the direct award of a new contract is based on PCR Reg. 32.2b (ii) which state that; The negotiated procedure without prior publication may be used for public works contracts, public supply contracts and public service contracts in any of the following cases:— (ii) competition is absent for technical reasons. A new contract with Nuvia for two years (with a potential additional 6-month contingency) will allow NUVIA to complete the current project to create a new database system for NDA. This system will allow PHE continue to fulfil the terms of our contract with the NDA to manage their radiation worker databases or preferably (subject to agreement) to take ownership of these databases and merge them with the NRRW to provide a higher quality unique resource for undertaking epidemiological research. The BNFL and UKAEA cohorts contain several types of data not currently available in The National Registry for Radiation Workers (NRRW). In essence, NDA is requesting and paying for this work, which is needed to meet current contract obligation and potentially bring more work in and additional revenue.

IV.1.8) Information about the Government Procurement Agreement (GPA)

The procurement is covered by the Government Procurement Agreement: No

Section V. Award of contract
