II.2.4) Description of the procurement

A new Engineering Service delivery construct will allow HIAL to ensure its regulatory compliance and operational service are delivered in a more robust and effective manner. It will deliver efficiencies in the provision of both scheduled and unscheduled support to ATS activities, while developing a partnership in service provision.

The following activities will be expected under the Service Provision Contract:

CNS and MET status monitoring and reporting;

CNS and MET Planned and Corrective Maintenance in accordance with regulatory requirements;

Management of the CNS inventory

Technical documentation (operational need, design, and maintenance documentation);

Maintaining compliance with safety assurance documentation;

Support to safety assurance activities;

Support to technical safeguarding;

Support to CNS asset replacement through a Systems Engineering approach.

II.3) Estimated date of publication of contract notice

4 December 2023

Section IV. Procedure
